

MULTIFACETED PERFORMANCE & VALUE CREATION

*Monday, 23 March 2026
from 10:00 a.m. to 11:00 a.m. (CET)*

AGENDA

- 1** | **Veolia's Performance
in Environmental Security**
- 2** | **Focus #1: Decarbonization Achievements**
Zoom on Harbin
- 3** | **Focus #2: Regeneration & Depollution
Achievements**
- 4** | **Focus #3: An Engaged Team**
- 5** | **Key Takeaways**

1

VEOLIA'S PERFORMANCE IN ENVIRONMENTAL SECURITY

Estelle BRACHLIANOFF
Chief Executive Officer, Veolia

Very Strong 2025 Results, Exceeding Annual Guidance

2025 Key Figures

- ✓ **Revenue:** €44,396M, up +2.8%⁽¹⁾
- ✓✓ **EBITDA:** €7,050M, up +6.3%⁽²⁾
- ✓✓ **EBITDA margin:** 15.9%, up +70bps
- ✓ **Current Net Income**⁽³⁾: €1,643M, up +9.1%⁽⁴⁾
- ✓ **Net Financial Debt**⁽⁵⁾: €19,657M
Leverage ratio⁽⁵⁾: 2.79x
- ✓✓ **ROCE after tax:** 9.4%

Key Takeaways

- **Revenue growth fueled by International and Boosters**
- **Organic EBITDA growth above +5% to +6% annual guidance, with an acceleration in Q4**
- **EBITDA margin up +150bps in 2 years**
- **Current net income**⁽³⁾ **growth in line with annual guidance**
- **Balance Sheet headroom: leverage ratio <3x after €2.3bn of net financial investments**
- **GreenUp ROCE objective reached 2 years ahead of plan**

Strong confidence for 2026

⁽¹⁾ At constant scope & forex and excl. energy prices

⁽²⁾ At constant scope & forex

⁽³⁾ Group share before Suez PPA

⁽⁴⁾ At constant forex

⁽⁵⁾ Before Suez PPA

2 out of 3 of our GreenUp Objectives Already Achieved

GreenUp Strategy Environmental Impact

Decarbonization

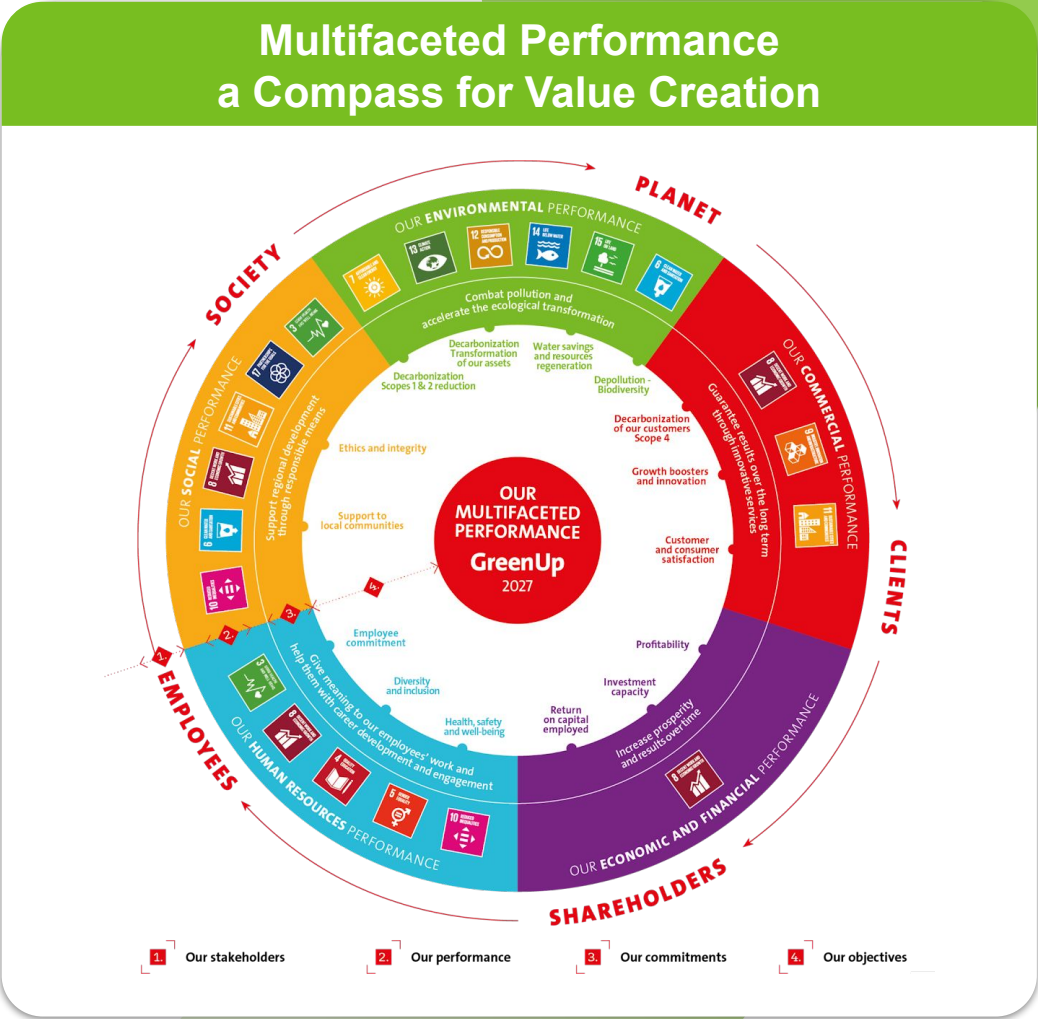

+23.6% CO₂e erased^(a) (Scope 4) vs 2023
+30% in 2027 vs 2023 & Net Zero 2050

Regeneration

1.57bn m³ of fresh water saved in 2025
1.5bn m³ of fresh water saved in 2027

Depollution

9.2 Mt of hazardous waste & pollutants treated in 2025
9 Mt of hazardous waste & pollutants treated in 2027

(a) Scope 4, also known as erased emissions, is a concept specific to Veolia, to value the reductions of GHG emissions from third parties thanks to the Group's decarbonizing solutions compared to a reference scenario without.

All Multi-Faceted Performance KPIs on Track or Already Achieved

Environmental

- ✓ **1,574 bn m³** of fresh water saved
- ✓ **18.6%** Scopes 1 & 2 GHG emissions reduction (vs 2021)
- ✓ **€141m** decarbonization capex⁽¹⁾
- ✓ **80%** deployment of biodiversity action plans on sensitive sites

Human Resources

- ✓ **88%** Engagement rate
- ✓ **37.1%** of Group Management Committee made up of women
- ✓ **4.11** Lost Time Injury Frequency Rate (17% improvement vs 2023)

Commercial

- ✓ **+8%** revenue growth of boosters, including Tuck-ins⁽²⁾
- ✓ **+23.6%** vs 2023 of CO₂e erased (scope 4)⁽³⁾
- ✓ **57 NPS results** (turnover coverage 84%)

Social

- ✓ **9.2M** inhabitants benefiting from inclusive access to essential services
- ✓ **88%** positive answers to the “ethics and compliance” question in VOR⁽⁴⁾ survey

⁽¹⁾ Coal exit and methane capture

⁽²⁾ Excl. energy prices

⁽³⁾ Scope 4, also known as erased emissions, is a concept specific to Veolia, to value the reductions of GHG emissions from third parties thanks to the Group's decarbonizing solutions compared to a reference scenario without.

⁽⁴⁾ VOR: Voice of Resourcers

ESG Ratings Validating Veolia's Leadership in 2025

General ESG

> ESG rating of A in 2025

> ESG Risk Rating of 19.9, Low risk⁽⁴⁾

> Sustainability Yearbook 2025 (Top 5%)⁽²⁾
> Dow Jones Best-In-Class Word and Europe
> 5th in the Multi and Water Utilities industry

> Prime status and 1st decile (B rating)
in the Multi-Utilities industry⁽³⁾

> Top 1% of Water Utilities⁽¹⁾

Climate

> Climate change: A rating,
Leadership band⁽⁵⁾

> Net Zero 2050 validation⁽⁶⁾
> Certified 1.5°C

> NZ-2 rating "Advanced"⁽⁷⁾
> Certified 1.5°C

Water

> Water security: A rating,
Leadership band⁽⁵⁾

Main Extra Financial Achievements in 2025

Extra-Financial Ratings

Recognition of our leadership in climate and water management

The highest "A"rating from CDP in 2025 on both "Climate change" and "Water security" themes in 2025

Governance

Ecological transformation acceleration with the "Future Generations Council"

An open dialogue with 30 young people under 30 from around the world to propose concrete actions reviewed in the ExCo

Employee Engagement

Reinforcing employee shareholders

Major success with the 16th Sequoia plan, launched in 2025, reaching 9.35% employee shareholding rate

Creating Value while Delivering Environmental Security

2

FOCUS #1: DECARBONIZATION ACHIEVEMENTS Zoom on Harbin

Emmanuelle MENNING

Deputy CEO Finance and Purchasing, Veolia

Christophe MAQUET

CEO, Asia-Pacific Zone, Veolia

Uniquely Positioned to Tackle Climate Change for Our Clients

Climate Change Challenges

Water
Scarcity

Extreme Weather
Events

Energy
Transition

VEOLIA SOLUTIONS FOR CUSTOMERS

Climate Change Mitigation

Transformation of
heating and cooling
networks

Methane capture and
energy from waste

Energy efficiency
of assets

Climate Change Adaptation

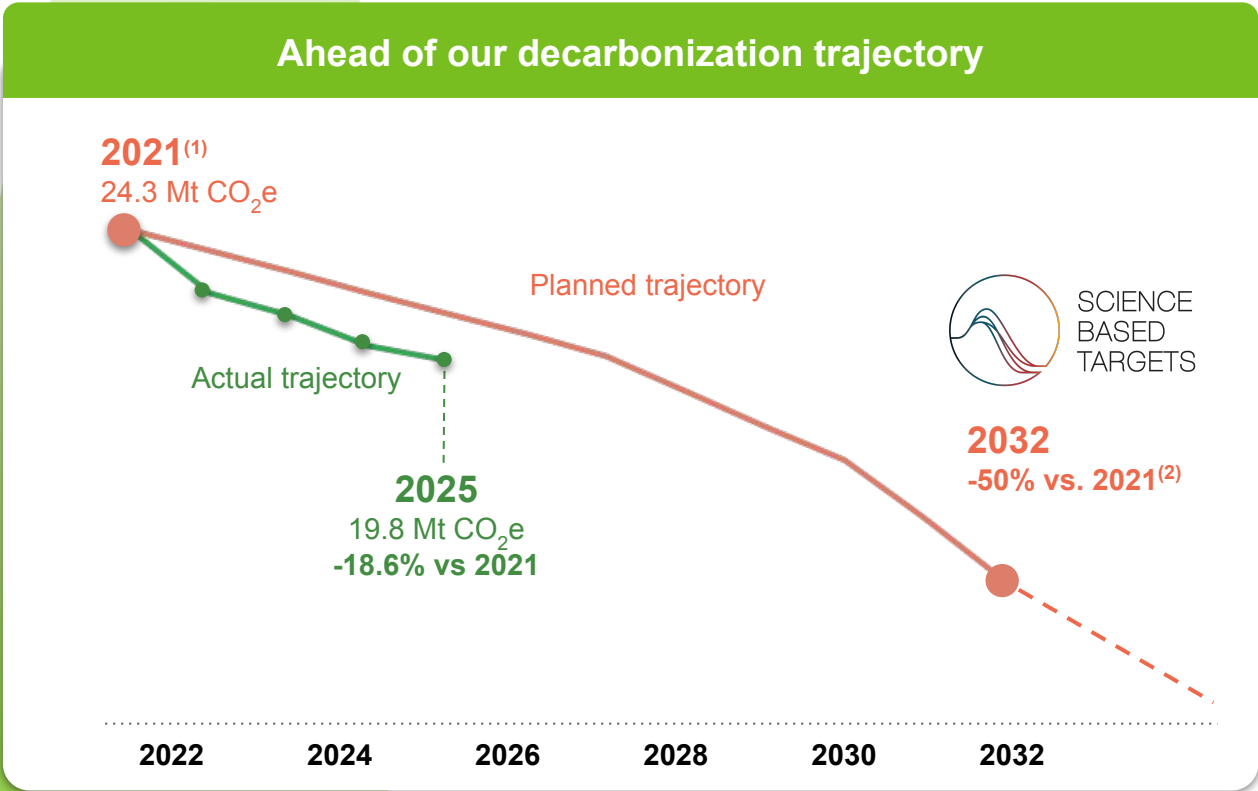

Water conservation solutions
to tackle droughts

Crisis management solutions
to deal with floods

> On top of these solutions, exposure and vulnerabilities analysis completed for 2,000 sites

Scopes 1&2: Veolia Carries on Massive Decarbonization Plans

Main decarbonization levers

- **Methane capture plan** especially in Latin America
- **Energy efficiency plan** over Veolia assets
- **Conversion of coal-fired combined heat & power plants**

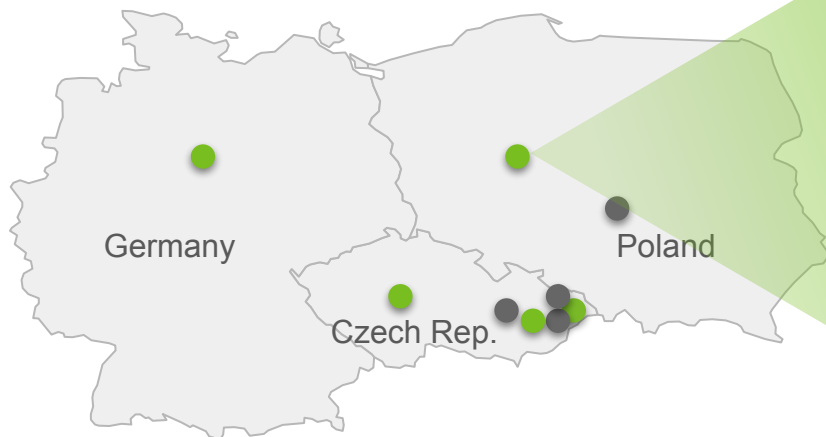

-18.6% CO₂ already achieved for scopes 1&2 vs 2021

Scopes 1&2: Creating Value for the Group with Decarbonization

Focus on Coal Exit in Europe by 2030

5 networks already transformed (Coal Exit)

IRR>10%
+€250M
Additional
EBITDA
after full ramp-up

- Plants already commissioned
 - Plants under retrofitting process
- Next transformation: Karviná

Poznań switching generation of power & heat from coal to a mix of gas, biomass, waste heat (geothermal to come)

-820,000 tCO₂ by 2030
for 400,000 connected people

Continuous reduction of coal-based activities
in Group revenue
2025: 2.6% >>> 2030: ~1%

Total Group Target: €1.6bn investment cumulated on coal exit in 2030, €786m already spent since 2018

Scope 3: Supporting our Clients' Decarbonization Trajectory

Focus on Tashkent District Heating Network, Uzbekistan

1.2M inhabitants connected to the **District heating network** owned by the city and operated by **Veolia** since **mid-2022**

Massive heat losses reduction obtained after the works performed by Veolia on the **heating network** in only **3 years**

IMPACT OF VEOLIA SOLUTIONS

For the client

Scope 1&2
-46%
(-621 kt CO₂)

For Veolia

Scope 3
-621 kt CO₂

Total Group target 2032: -30% over 67% of Veolia Scope 3* (vs 2021)

Scope 4*: Solutions to Boost Erased Emissions for our Clients

Example: WENT Landfill operated by Veolia for Hong Kong

By deploying methane capture solutions at client sites, Veolia reduces its clients' direct emissions or scope 1&2 emissions

Veolia's impact is measured with Scope 4 which calculates the volume of emissions erased compared to the average level of decarbonization for the same assets in the country where the client's site is located

IMPACT OF VEOLIA SOLUTIONS

For the client

For Veolia

Total Group Target: Already +23.6% in Scope 4 vs 2023 (+30% targeted by 2027)

* Scope 4, also known as erased emissions, is a concept specific to Veolia, to value the reductions of GHG emissions from third parties thanks to the Group's decarbonizing solutions compared to a reference scenario without.
For more details please refer to section 4.1.5.4 in the 2025 URD.

ZOOM: URBAN HEATING NETWORK HARBIN, CHINA

Christophe MAQUET
CEO, Asia-Pacific Zone, Veolia

Zoom: Urban Heating Network Harbin, China

A Challenging Context for Decarbonization

- **Essential service for population: top asset** to support **6 months** heating season with an average temperature of **-20°C** in winter
- **Veolia** has been operating the network since 2007 serving a population of **600,000+ inhabitants** (Veolia revenue in Harbin: €143M (i.e. 0.3% of Group revenue in 2025))
- **Coal** remains the primary source of energy for heating in the whole province of Harbin (Heilongjiang) with **no alternative fuel** at scale

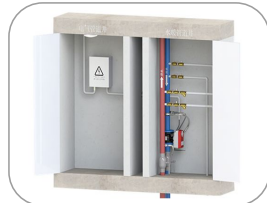

Zoom: Urban Heating Network Harbin, China

Veolia Best in Class in Reducing CO₂ Emissions

MAIN LEVERS ALREADY DEPLOYED

- **Improving heating plant efficiency** with flue gas waste heat recovery system
- **Improving network efficiency to 94%*** **57.8 km pipeline replaced**, insulation of the network and substation & optimizing fuel consumption with smart control and digital tools
- **Energy savings deployed** at end-users, installation of indoor temperature sensor (up to 6,702 sensors installed)

PREPARING THE FUTURE

- **Replacing a share of coal with biomass:** From 2028 to 2030, ~10% of **CHP's coal consumption** will switch to **biomass pellets**
- **Optimizing energy efficiency at top levels with AI:** predicting heat supply with weather forecast, building thermal storage capacity in real time

-30% of CO₂ per heated sqm between 2012 and 2024**

Target by 2032: -25% of CO₂ per heated sqm (vs 2021)**

3

FOCUS #2: REGENERATION & DEPOLLUTION ACHIEVEMENTS

Sébastien DAZIANO

Senior Vice President, Strategy, Innovation
& Development, Veolia

Ensuring Environmental Security with Resource Regeneration

Fighting Water Scarcity

What we offer

- Water consumption & distribution efficiency, leakage reduction to **reduce water extraction**
- Water Reuse, Zero Liquid Discharge for Industries to **avoid water shortage for cities & industries**
- Sustainable desalination solution to **offer alternative solution** in water-scarce regions

For long-term industrial resilience & resource preservation

Where: Vitória Water Reclamation Station, Brazil

What: Converting a wastewater treatment plant into a water reuse station for industrial clients

How:

- High-performance membrane bioreactors (memDENSE™)
- Highly efficient separation of solids using ultrafiltration membrane (ZeeWeed™)
- Reverse osmosis (PROflex™)

Achievements:

- Freeing up freshwater resources equivalent to the needs of 200,000 people
- Processing capacity: 38,880 (m³/d)

Less water extracted thanks to innovative technologies

1.57bn m³ of Water Saved in 2025 //

1.5bn m³ targeted in 2027

Ensuring Environmental Security with Depollution

Protecting People's Health

What we offer

- **License to operate** for industries
- **Regulatory compliance** requiring innovative treatments
- Securing **access to key resources** (energy, materials, solvents...)
- **Impact reduction** on health & environment

Setting a new industry standard
for environmental performance

Beyond**PFAS**

Where: Port Arthur, U.S.

What: PFAS management in Water & in Waste

How:

- A suite of end-to-end targeted PFAS management solutions
- Evaluation, measurement and treatment plans for our water systems
- PFAS mitigation systems
- State-of-the-art high-temperature incineration facilities

Achievements:

- More than 1,000 customers served (for PFAS waste), over 90 mm³ of treated water for ≈11M people across U.S.

**A WORLD
FIRST**

Destruction and
removal efficiency
of up to **99.9999%**

9.2 Mt of hazardous waste & pollutants treated in 2025 //

9 Mt targeted in 2027

Protecting the water resource with Nature-Based Solutions

Protecting Biodiversity

What we offer

- Developing **nature-based solutions** to manage the water resource
- **Restoring natural environments:** artificial reefs, reforestation
- **Preventing floods** to preserve biodiversity

For long-term industrial resilience
& resource preservation

Where: Sucre, Colombia

What: By planting trees in specific geological outcrops we enhance the recharge and quality protection in areas threatened with water deficit and rising demand

How:

- Hydrogeological modelling
- Ecological restoration
- Recharge zone protection
- Technical optimization (hydraulic control, leak reduction...)

Achievements:

- Protecting the water resource for 300,000+ inhabitants

100,000+
trees planted

80% deployment of biodiversity action plans on sensitive sites in 2025 // 85% targeted in 2027

4

FOCUS #3: AN ENGAGED TEAM

Isabelle QUAINON

Senior Vice President, Human Resources, Veolia

Fostering Employee Engagement as a Differentiating Factor

Boosting employee engagement

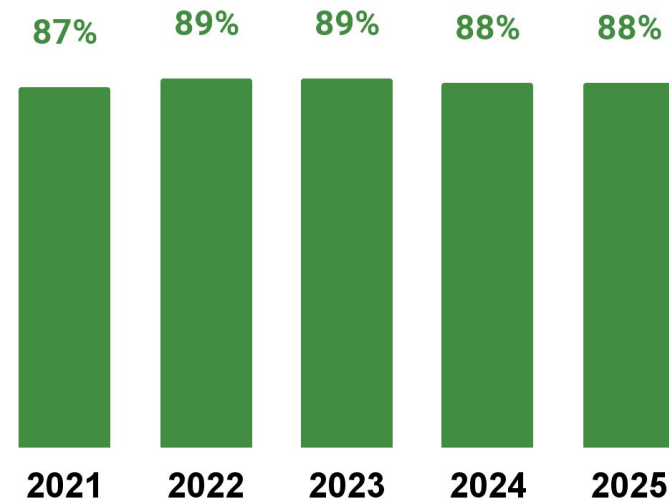

Always acting for a **safe and secure** work environment

Continuously building **trust** among our employees

Creating and developing **local impact**

Empowering employees with **AI**

Engagement rate maintained at a high level

- Participation rate constantly rising (84% i.e. 215,000 employees)
- **Turnover rate** decreasing in all geographies from a low level (1% lower than average rate of comparable groups panel)

Engagement rate at 88% in 2025 (vs 74% utilities average)

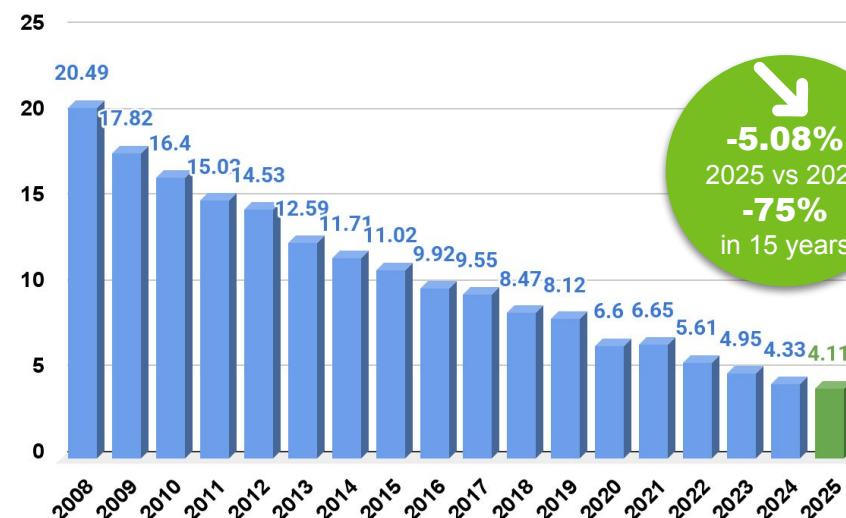

Always Acting for a Safe and Secure Work Environment

Taking care of our employees with a special focus on:

- Newly hired employees
- Waste recycling and biomass plants, most prone to accidents
- Dangerous machinery
- Continuous application of the 12 Life-saving rules

Workplace accident frequency⁽¹⁾ continuous decrease

Workplace accident frequency

By 2027 Workplace accident frequency⁽¹⁾ ≤ 4.1

Continuously Building Confidence Among our Employees

Growing employee shareholding year by year

16 Sequoia shareholding plans so far, 45% subscription rate in Sequoia 2025

- Employee shareholding rate at **9.35%** with an objective of reaching **10%**
- Open to around **190,000** employees in **56** countries

Maintaining our equal opportunities commitments

Signing of the European Diversity and Inclusion Agreement in 2025

- Transparency in job offers
- Gender diversity (**40%** of external recruitments are female executives)
- **10%** of internal mobility and **10%** of promotions annually

Expanding Veolia Cares initiatives

Over 11,400 employees engaged in 2,543 actions

- Positive evaluation of Veolia Cares initiatives by our employees: **>66%** believe they will benefit in the future

Continued & Sustained Employees Benefits

Creating and Developing Local Impact

Volunteering Day 2025

- **Volunteering initiatives:** 11,400 employees involved in 2025, with actions deployed across all Veolia entities worldwide (**9,500 days**)
- **Participation rate:** 5.4% (doubled in 2 years)
- **Broad-scale engagement:** 1,039 NGO partners worldwide, ranging from global NGOs (WWF, Red Cross, Food Banks) to grassroots initiatives
- **Foundation Veolia:** multiple humanitarian missions (Ukraine, Jamaica, Democratic Republic of the Congo...), audit missions (Malawi, Cameroon, South Africa, Uganda...), collaboration with Tara Océan foundation,...

3 Pillars of Employee Engagement

Environmental preservation

Mobilizing teams to clean natural spaces and restore local ecosystems
Example: Veolia in Italy

Solidarity and Inclusion

Supporting local communities by partnering with NGOs to build critical infrastructure and help vulnerable populations
Example: Veolia in Ecuador

Education and Awareness

Empowering citizens and youth through environmental education and sustainable practices
Example: Veolia in India

Strong acceleration in global volunteering to support local communities

5

KEY TAKEAWAYS

Estelle BRACHLIANOFF
Chief Executive Officer, Veolia

Sustainability Embedded in a Robust Value Creation Model for Environmental Security

✓ Record financial results in 2025 above guidance

✓ Already ahead in our multi-faceted performance targets

✓ Value creation with ecological security

✓ Employees are Group's first shareholder

✓ Our purpose: reconcile human progress & environmental protection

A COHERENT MULTI-FACETED PERFORMANCE STRATEGY

✓ KPIs impacting variable remuneration of 25,000 people

✓ ExCo members sponsoring each topic

✓ Setting clear criteria in our investment committees

✓ Positive cycle of value creation

APPENDIX

All Multi-faceted Performance 2025 Results in Line With GreenUp 2027 targets

Dimensions	Objectives	Indicators	2025 Sponsors	2023 baselines	2025 targets	2025 results	GreenUp 2027 targets	Status 2025
Commercial	Customer and consumer satisfaction	Customer satisfaction rate calculated using the Extended Net Promoter Score (score and revenue coverage)	Nadège Petit	n/a	n/a	NPS = 57 with 84% of revenue covered	score ≥ 30 with 80% of revenue covered	✓
	Decarbonization of our customers - Scope 4	Erased GHG emissions	Christophe Maquet	13.45 Mt	n/a	+23.6% vs 2023	+30% vs 2023	✓
	Growth boosters and innovation	Revenue growth in priority business segments (Energy, Water Technology, Hazardous Waste)	Anne Le Guennec (WT) J.F. Nogrette (HW) Gavin Graveson (Energy)	€12.032 billion	> 6%	+ 8,6%	CAGR ≥ 5% vs 2023	✓
Environmental	Decarbonization - scopes 1 and 2 reduction	Scopes 1 and 2 GHG emissions reduction	Emmanuelle Menning	24.3 Mt CO ₂ eq (2021 baseline)	n/a	-18.6 % vs 2021	-18% vs 2021 (2025 meth.)	✓
	Decarbonization - transformation of our assets	Decarbonation Capex (phase out of coal and methane capture)	Philippe Guitard	not applicable	€136 M (annual)	141 M€ (annual)	600 M€ (cumulative 2024-2027)	✓
	Fresh water saved and resource regeneration	Freshwater saved (reuse, desalination, leakage reduction)	Gustavo Miguez	1.4 billion m ³	n/a	1.574 billion m ³	≥ 1.5 billion m ³	✓
	Depollution - Biodiversity	Biodiversity preservation on sensitive sites	Sébastien Daziano	59 % progress	75 % progress	80% progress	≥ 85% progress	✓
Human resources	Health, safety and well-being	Lost time injury frequency rate (Veolia employees)	Estelle Brachlianoff	4.95	4.3	4.11	≤ 4.1	✓
	Employee commitment	Employee commitment rate in the "Voice of Resourcers" survey	Laurent Obadia	89%	≥ 85%	88%	≥ 85%	✓
	Diversity and inclusion	Proportion of women in the Group Management Committee	Helman le Pas de Sécheval	25.6 %	n/a	37.1%	≥ 30%	✓
Social	Ethics and integrity	Positive answers to the ethics and compliance question in the "Voice of Resourcers" survey	Eric Haza	88%	≥ 83%	88%	≥ 83%	✓
	Support to local communities	Residents benefiting from inclusive solutions to access essential services (all activities)	Isabelle Quainon	7.8 million people	n/a	9.2 million people	8.4 million people	✓
Economic and Financial	Profitability	Current net income, Group share	Emmanuelle Menning	€1.335 M	+9%/2024 (cst FX)	€1.643 M	CAGR ~ 10% (cst FX 2023)	✓
	Investment capacity	Free cash flow (before discretionary growth Capex)	Emmanuelle Menning	€1.683 M	€1.608 M	€1.782 M	annual	✓
	Return on capital employed	Post-tax ROCE	Emmanuelle Menning	8.3 %	9%	9.4%	annual	✓

The Alignment Ratio with the EU Green Taxonomy Demonstrates Veolia's Engagement with Ecological Transformation

Alignment Continues to Improve in 2025

- Aligned turnover of 46% in 2025 vs 44% in 2024
- 73% of eligible scope is aligned in 2025 vs 71% in 2024

A confirmation of:

- The growing part of green activities in the portfolio and new projects
- The worldwide environmental performance of activities, illustrated by the high compliance ratio of eligible activities with the EU taxonomy demanding screening criteria

All 3 activities contribute significantly to the aligned Capex:

37% Water

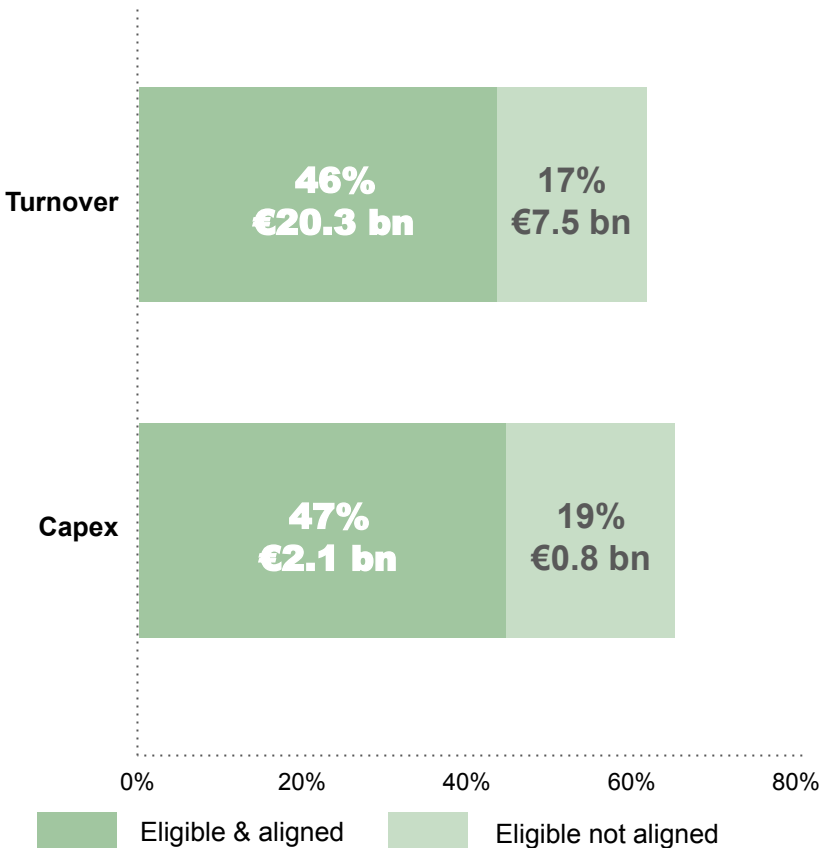

34% Waste

29% Energy

Alignment rate with EU Green Taxonomy in 2025
