

DEEP DIVE
WASTE TO VALUE

Focus on Innovation and Hazardous waste

Wednesday, 25th June 2025
Courrières, France

VEOLIA

AGENDA

1. Waste Transformation by Veolia
2. Hazardous Waste Booster
3. Performance & Business Models
4. Round Table

WASTE TRANSFORMATION BY VEOLIA

Estelle BRACHLIANOFF
Chief Executive Officer, Veolia

Supportive Megatrends

From an Essential Service to the “Mining” of Energy & Materials and Health Protection

Essential Services

Health Protection
PFAS
Micropollutants

Strategic Independence
Local Energy, Strategic Metals & Minerals

Environmental Regulation
CO_2
& Biodiversity

Industrialization & Reshoring
Pharmaceuticals
Microelectronics

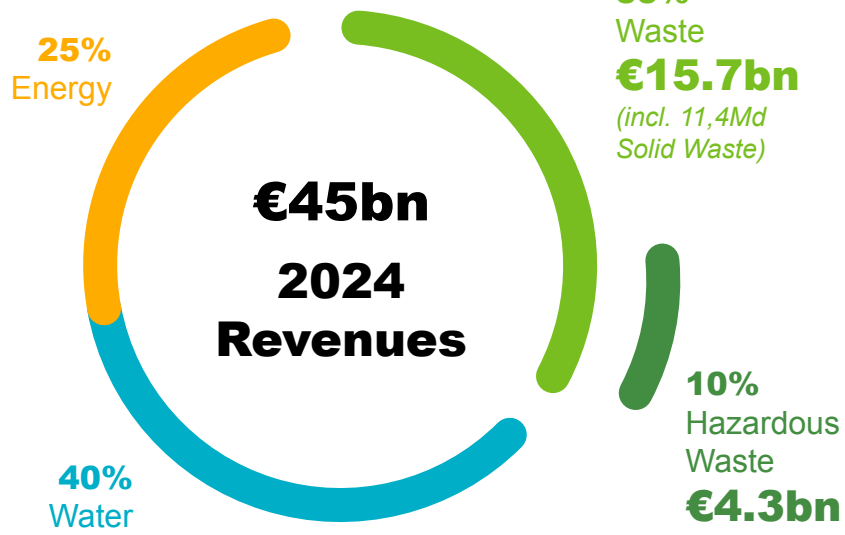

CLIENTS' CHALLENGES

- **Licence to operate for industries**
- **Regulatory compliance requiring innovative treatments**
- **Securing access to key resources**
  (energy, materials, solvents…)
- **Impact reduction on health & environment**

Veolia a Leader

Environmental Services, Circular Economy & Hazardous Waste

"BOOSTER"

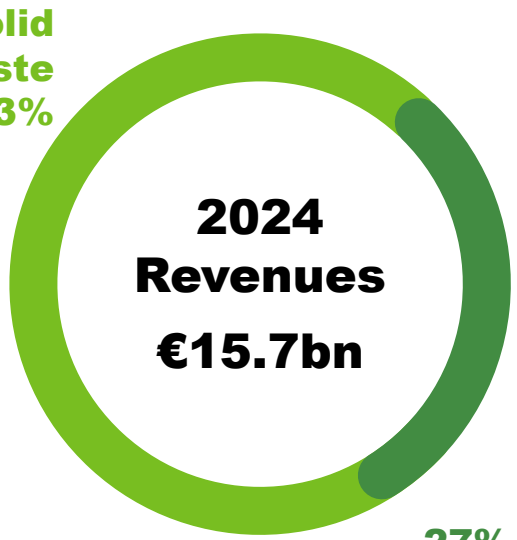

#1 Worldwide in Hazardous Waste

STRONGHOLD

#1 in Europe in Circular Economy

Balanced Portfolio for Stronger Resilience & Impact

Waste Business Portfolio

SOLID WASTE

55 Mtons treated
with 500+ solid waste processing plants

9 TWh of energy generated
6.5 Mtons of recycled material (plastics, paper, metals etc)
1.5 Mtons of compost produced

HAZARDOUS WASTE

8.7 Mtons of pollutants treated*
in 300+ hazardous waste processing facilities

** Impact scope related to the divestment of RGS (U.S.A.)*

VEOLIA

Veolia, Championing a Growing Market

WASTE MANAGEMENT SECTOR

~€1,300bn in 2025*

~3% growth per year by 2030*

BOOSTER HAZARDOUS WASTE

GreenUp 24-27 Ambition**

- Revenues Growth: **Mid to high single digit CAGR**
- EBITDA Growth: **~+10% CAGR**
- Margin Expansion
- ROCE Increase: **~+50%**
- **+285 Kt** new capacity opened by 2027 and **+430 Kt/y** when fully ramped up
- **+100 Kt/y** of new M&A treatment

By 2030

- Revenue Growth: **+50%**
- **~€1bn** in PFAS & new pollutants treatment across activities

STRONGHOLD SOLID WASTE

- Solid Revenue Growth

** Veolia estimation (World Bank, Eurostat, Frost&Sullivan)*

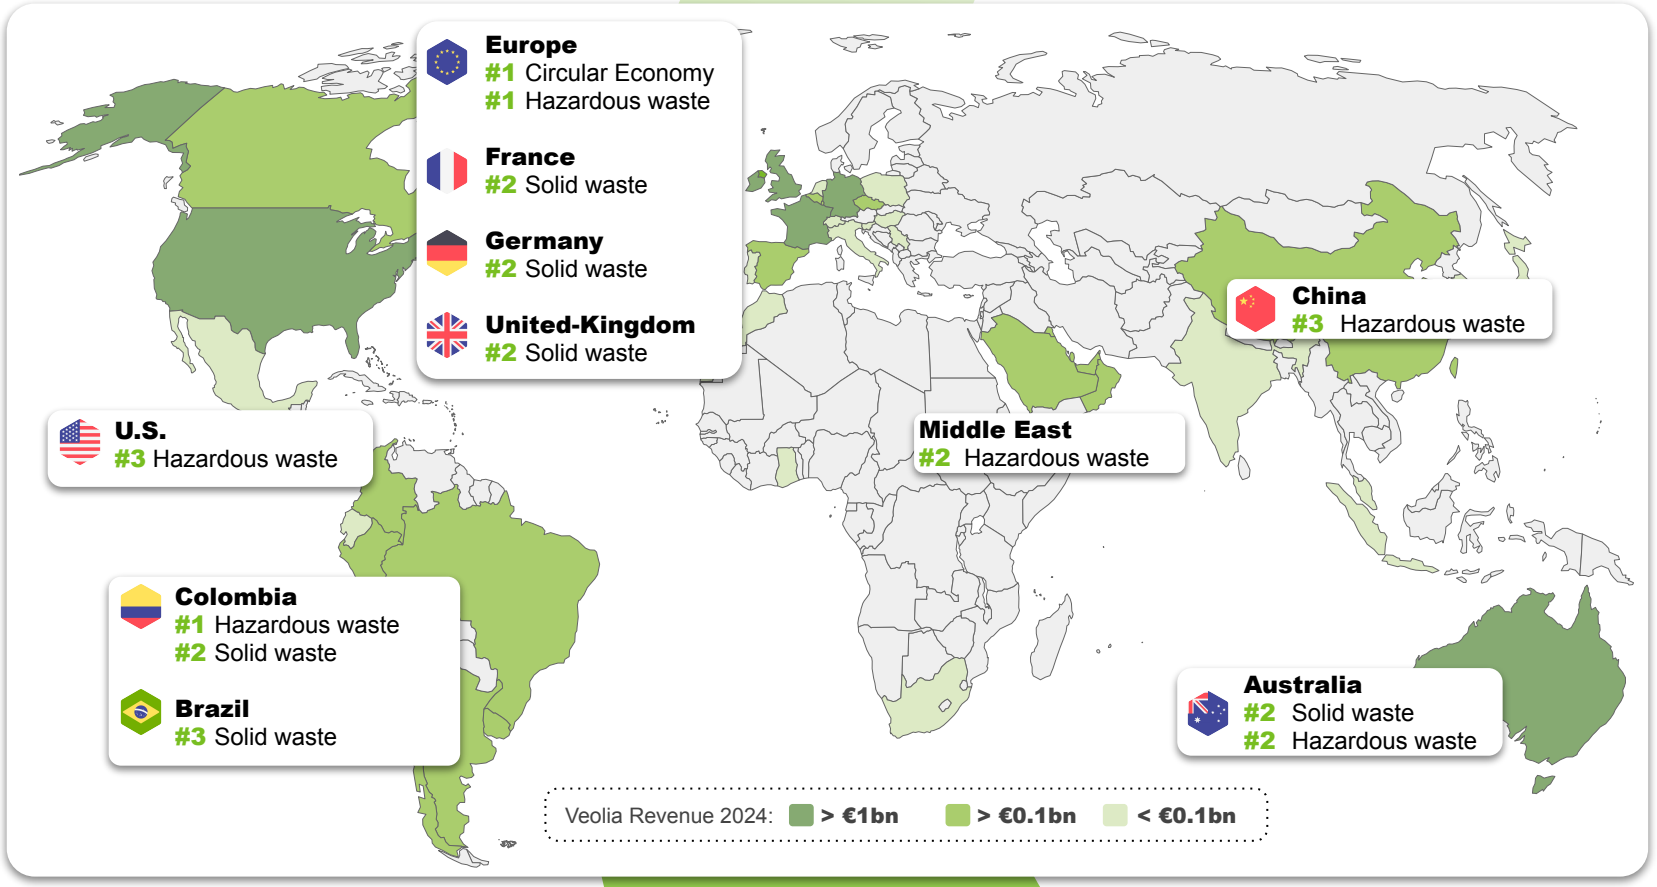

*** 2023 Restated of RGS Disposal*
All the trajectory figures are expressed at constant forex

VEOLIA

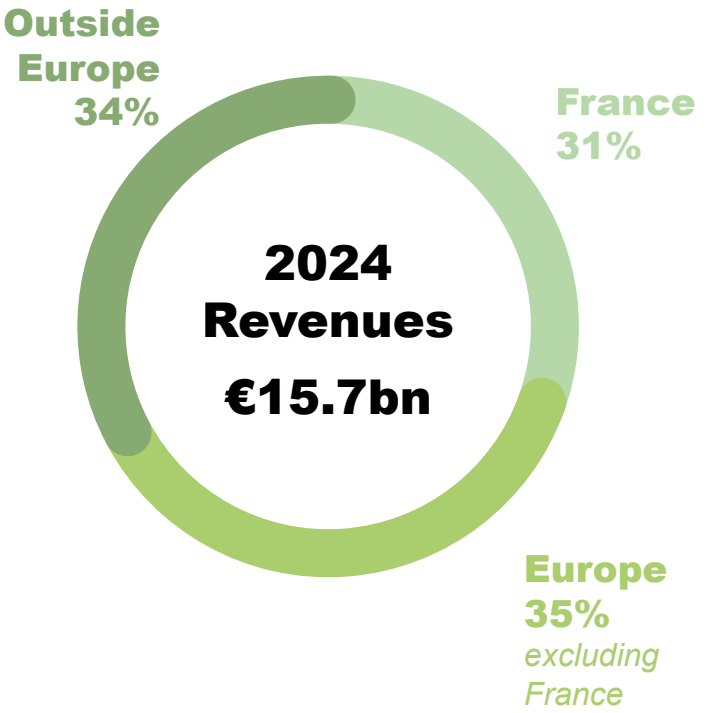

Veolia's Winning Formula to Lead Waste Transformation

A Global Presence to Foster the Transformation of Waste Market

Geographical Footprint

This slide does not intend to reflect relevant markets from a competition law standpoint, nor Veolia's positioning on such markets.

Creating Differentiating Solutions Through Combination

Examples of Strategic Business Synergies & Combinations

Bioenergies from Waste

9 TWh and €2.5bn revenue from combination in 2024

European Sector Potential
150 GW_{th} by 2030

PFAS & New Pollutants

€205m* revenue in 2024
from €0 in 2022

Veolia Revenue Target
€1bn by 2030

** Combined revenue from water ops, water tech and hazardous waste*

VEOLIA

Strong Track Record of Resilience and Growth

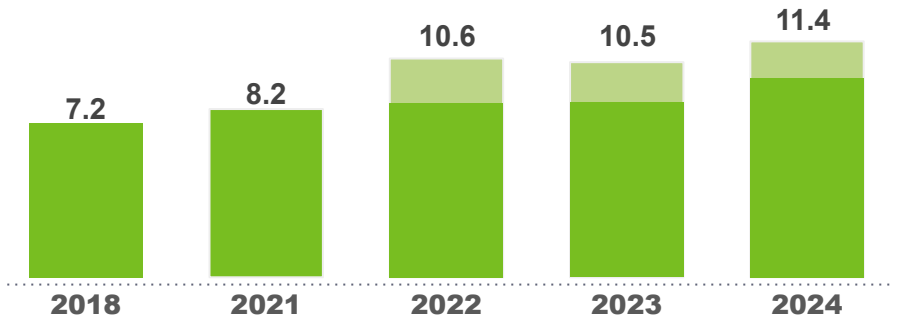

RESILIENCE

- **Geographical and Customer Balance**
- **Agility / Performance:** long track record in efficiency plans, high utilization rate of assets
- **Price Indexation, Pricing Strategy, Hedging of Commodities**

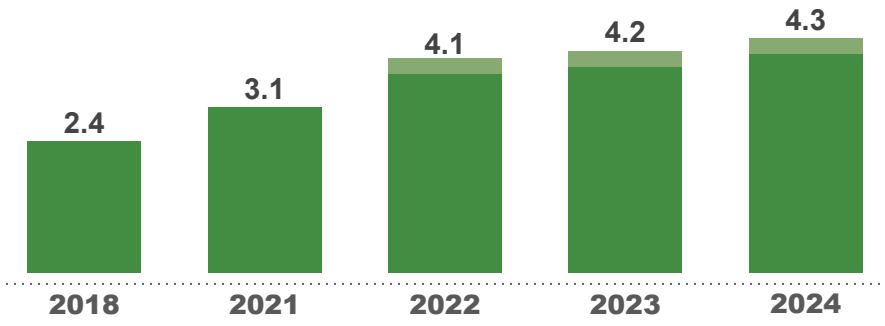

GROWTH

- **Volumes:** new customers, volume expansion with existing customer, new regulations, new pollutants, population concerns
- **Pricing & Mix Optimization**
- **New Offers & Innovation** Toward more Added Value Solutions: ex. PFAS

SOLID WASTE REVENUES in €bn

HAZARDOUS WASTE REVENUES in €bn

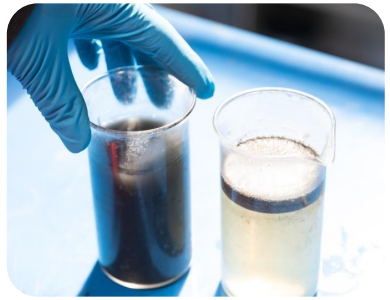

HAZARDOUS WASTE BOOSTER

Estelle BRACHLIANOFF
Chief Executive Officer, Veolia

Specialized Treatment for Every Type of Hazardous Waste

Innovative Cutting-Edge Technologies Embedded in our Offers

Laboratory Analysis

Hazardous Waste characterization: traceability, safety, treatment path validation (~15% of the workforce, typically chemical engineers)

Physico-Chemical Treatment

Wastewater contaminated with toxic material
Ex: fly ashes, filter cakes, catalyst waste, …

High Temperature Incineration

Hazardous liquids, solids, sludge waste
Ex: PCB, PFAS, pesticides, non chlorinated solvents, …

Recycling & Regeneration

Valuable & Recyclable Hazardous waste
Ex: chlorinated solvents, acids, batteries, precious metals, spent oils, ...

Specialised 'class 1' Landfilling

Polluted minerals or materials to be stabilized and stored
Ex: air pollution control residue, polluted sludges, powdery asbestos, ...

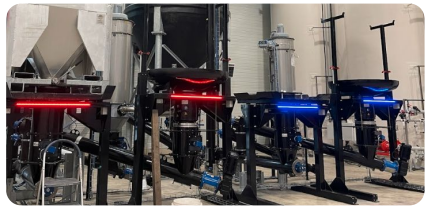

Soil Remediation

Polluted soils sorted, treated and recovered
Ex: soils contaminated by heavy metals (mercury, lead, etc.), hydrocarbons, PFAS, solvents, chlorinated compounds, ...

Fostering Change with Constant Innovation

Strategic metals separation ® & Battery Recycling

- **Innovative recovery process** able to produce **technical grades metal hydroxides & carbonate** (nickel, cobalt, lithium, copper)
- **Fed** from a **network** of **preparation units across Europe** answering to the **EU Critical Raw Material Act** for EV Batteries

Spent Solvent Recovery ®

- **Solvent regeneration** to supply industrials with **high-quality secondary raw materials** guaranteeing the quality and safety
- **73 plants** with **tolling model** to **customers**

PFAS - Plug & Sorb ®

- **Saturated activated carbon regeneration,** even the most contaminated
- Turnkey service with a **complete range of filters and activated carbon** to filter polluting emissions

PFAS - DropFast™

New

- **Innovative add-on solution** allowing **chemical reactions on PFAS** during thermal treatment to perform pollutants destruction
- **100% high temperature incinerators** in **Europe** equipped by the **end of 2025**

GeoMelt ®

- In particular **vitrification technologies** adapted for **radioactive waste**
- **Reliable, safe** and **cost effective solution** to treat **polluted soils**, or even **metallic** and **reactive waste**

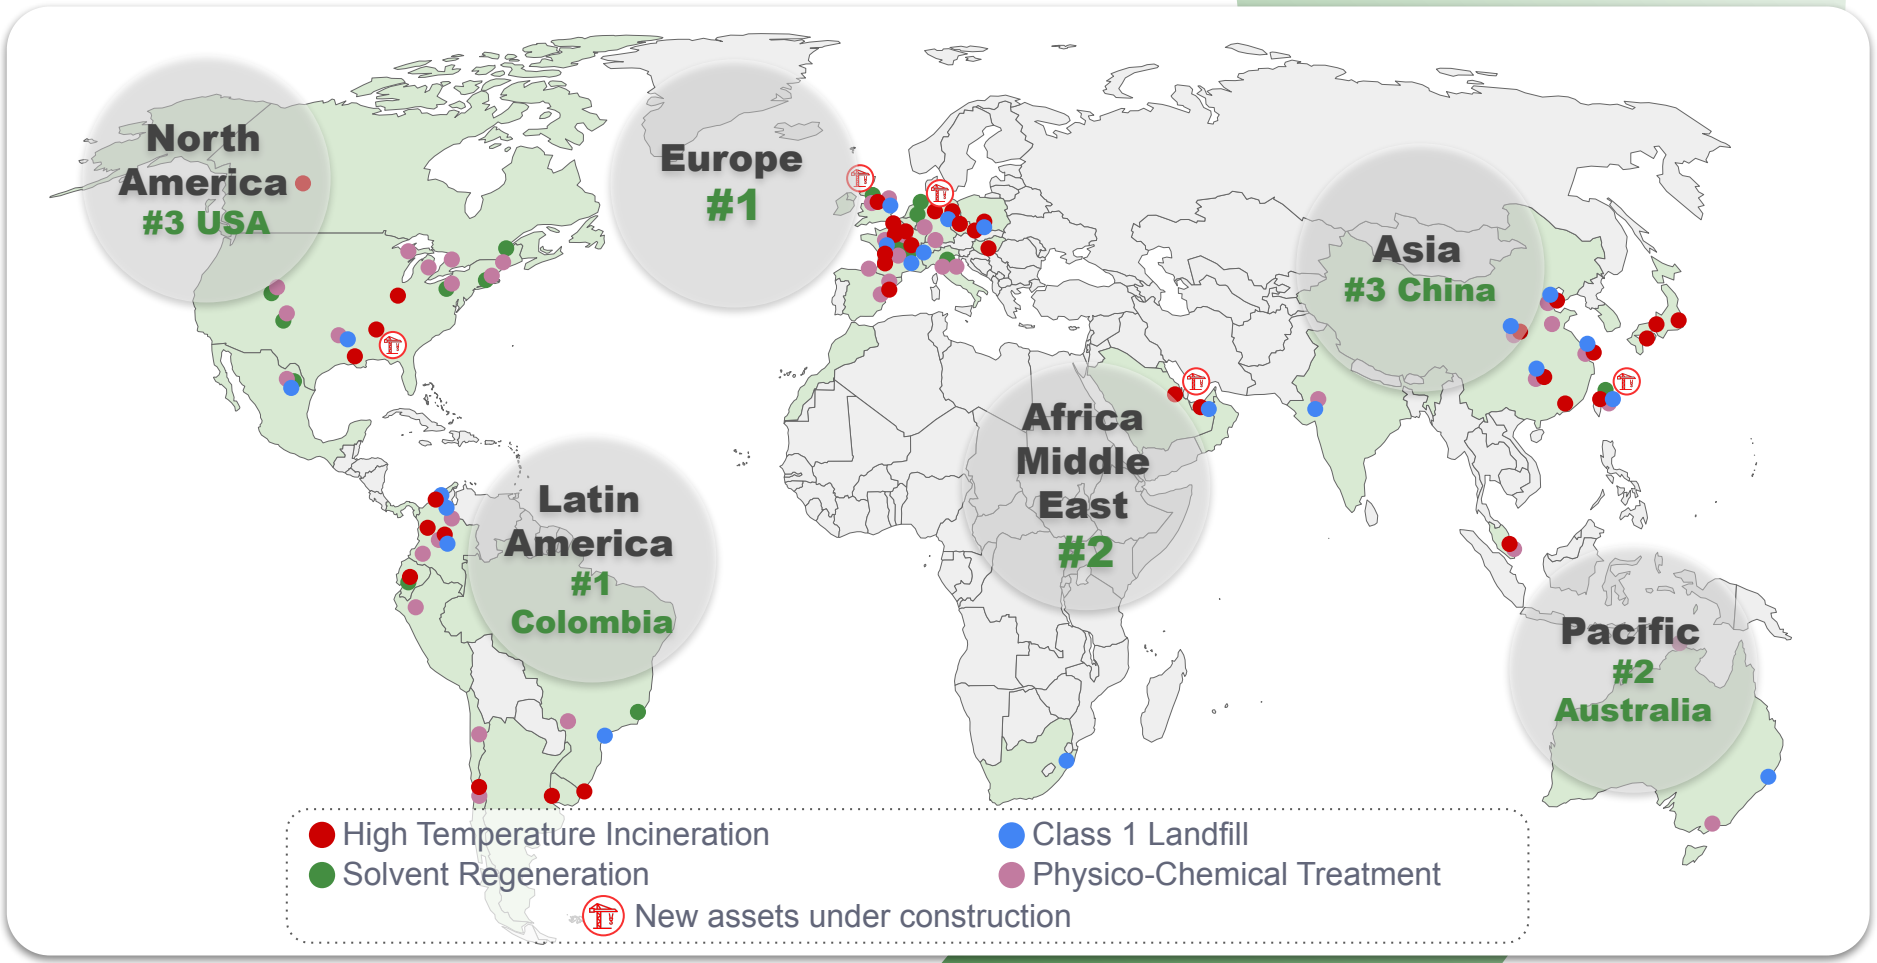

Veolia, Undisputed Leader Worldwide

€4.3bn 2024 Revenues, 300+ Owned Treatment Assets

HAZARDOUS WASTE MANAGEMENT SECTOR

~€35bn* in 2025

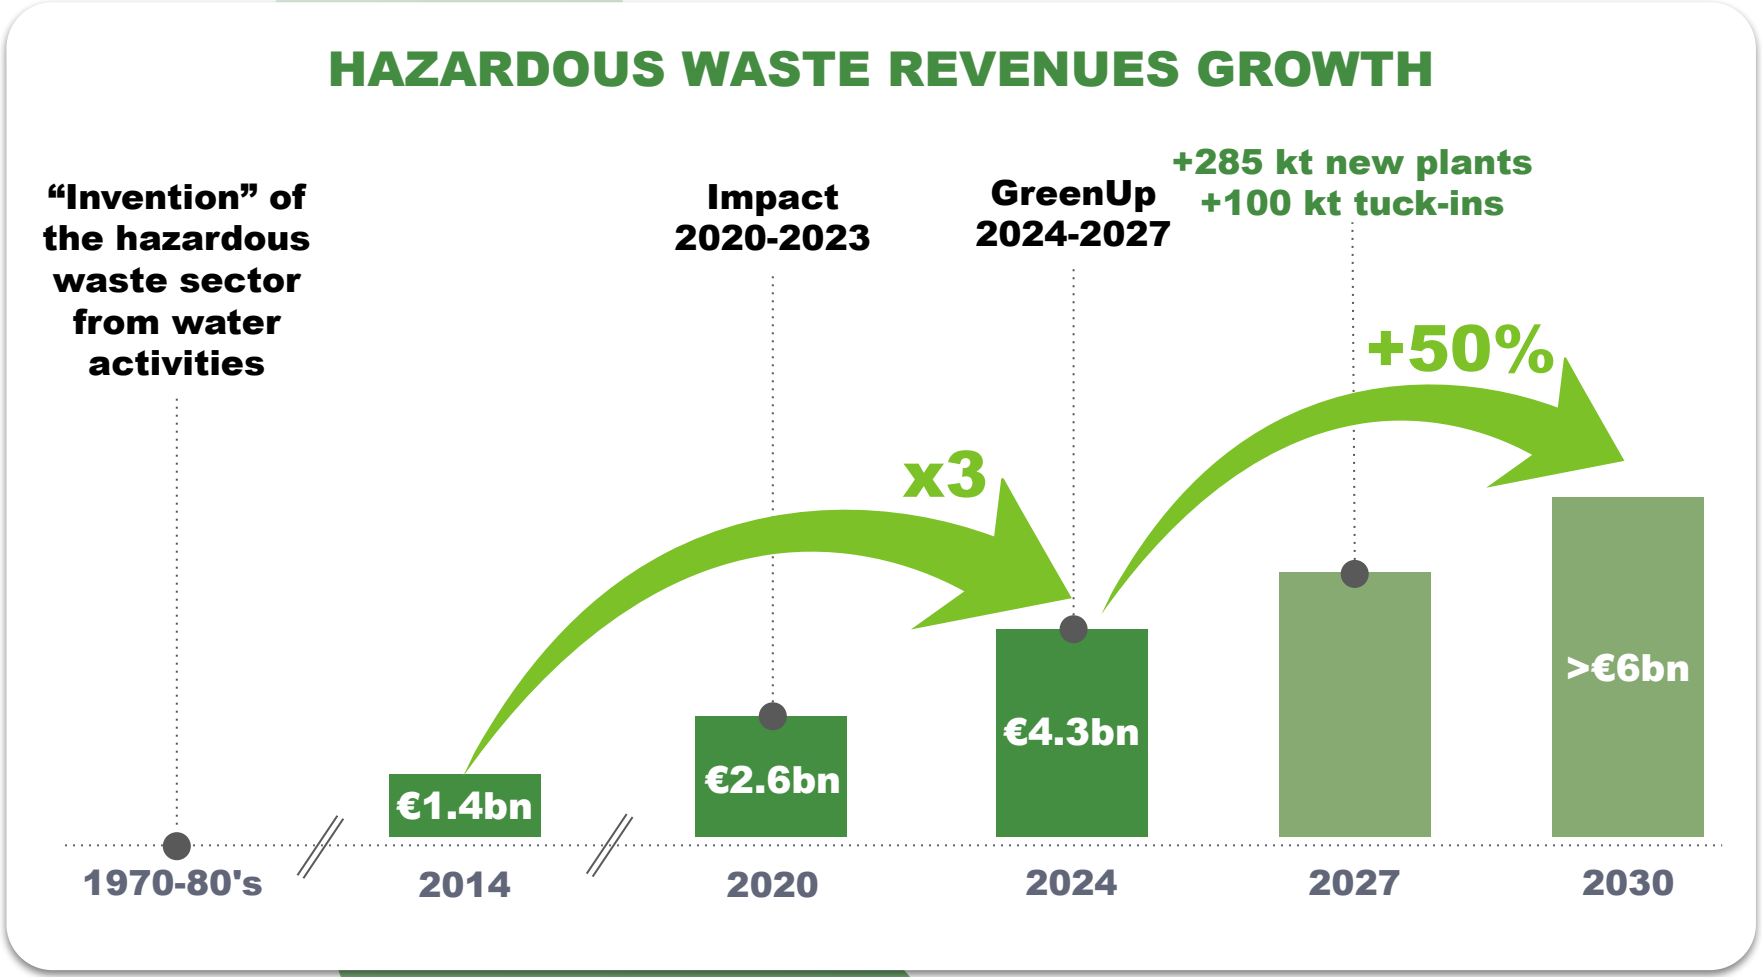

~3.5%* growth per year by 2030

** Source: Emerton, Veolia estimation*

A Proven Growth Track Record and High Ambition

From Pioneer to Global Leader

Health Protection & Biodiversity

By 2027:

- **+285 kt** new capacity opened, and +430 kt/y when fully ramped up — New
- **+100 kt/y** new capacity in 5 tuck-ins since Jan 25 — New
- **9Mt** pollutants treated

VEOLIA

A Strong Ambition in Hazardous Waste

SUPPORTIVE SECTORS & MEGATRENDS

- **Health protection**
- **Nature & biodiversity protection**
- **Industrialization**
- **Regulation**
- **New pollutants removal & strategic materials recovery**

VEOLIA, A LEADER

- **Worldwide footprint of owned treatment assets (300+)**
- **Wide range of technologies** (physico-chemical treatment, high temperature incineration, soil remediation…)
- **Continuous innovation**
- **Balanced customer portfolio**
- **Value creation via combination with water & energy**
- **Successful track record and growth strategy**

STRONG AMBITION IN HAZARDOUS WASTE

GreenUp 24-27*

- Revenues growth: Mid to high single digit CAGR
- EBITDA Growth: ~+10% CAGR
- Margin Expansion
- ROCE Increase: ~+50%
- **+285 Kt** new capacity opened and **+430 Kt/y** when fully ramped up
- +100 Kt/y new M&A treatment

By 2030

- +50% Hazardous Waste Revenues
- **~€1bn in PFAS & new pollutants treatment** across activities

** 2023 Restated of RGS Disposal*
All the trajectory figures are expressed at constant FX

VEOLIA

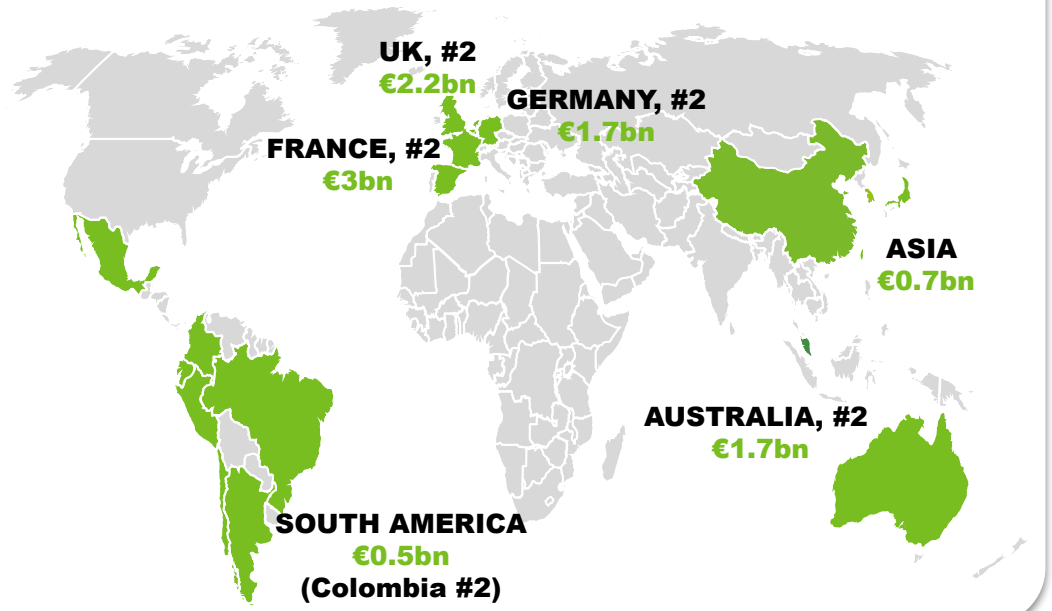

PERFORMANCES & BUSINESS MODELS

Emmanuelle MENNING
Deputy CEO Finance and Purchasing, Veolia

SOLID WASTE

Solid Waste: a key positioning in all our geographies

Top #3 in the Geographies where we Operate

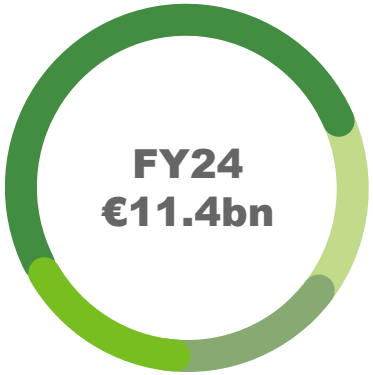

Balanced Customer Portfolio

~50% Municipal

Price Indexations

Long Term contracts: 5 to 20 years duration

19% Commercial & Retail

16% Industrials

15% Tertiary

Strong Position on a Mature Business

- **EBITDA €1.5bn**
- **EBITDA Margin 13%**
- **Strong predictable FCF***
- **ROCE** ~9%** Above Group's WACC
- **NPS*** 49**

* Free Cash Flow / ** ROCE calculated after tax / *** Net Promoter Score

2024 Figures

VEOLIA

Transforming Waste into a Resource to Enhance Value Creation

Collection & Services

- Collected volumes **to help to fill our treatment capacities**
- Efficiency and **selectivity in Municipal collection**

Revenue FY24 €5.8bn

EBITDA Margin 5-10%

Sorting / Recycling

- **Owned assets** for Commercial & Industrial waste sorting, plastics, WEEE*, strategic metals
- **Limited exposure** to recycled materials prices

Revenue FY24 €2.5bn

EBITDA Margin ~10%

Incineration

- **Long-term contracts** Asset operated on behalf of customers
- **Long term cash flow** largely secured and high EBITDA margins

Revenue FY24 €1.8bn

EBITDA Margin 20-25%

Landfills

- Input waste can be sourced from collection business. Mainly owned sites
- **High EBITDA margins**

Revenue FY24 €1.3bn

EBITDA Margin 25-30%

Treatment Assets

Collection business “fueling” treatment assets

*Waste Electrical and Electronic Equipments

VEOLIA

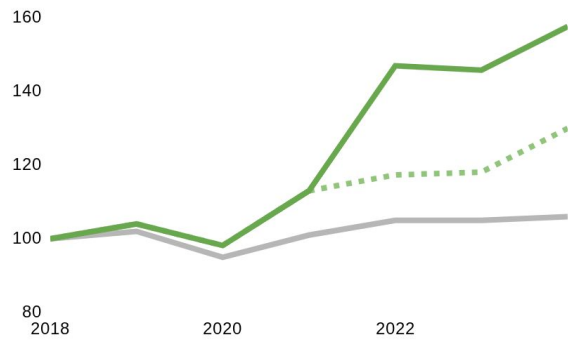

Agility & Positioning

Ability to protect and develop waste activities

- **Top #3 in each geography**
- **Balanced portfolio**
  Geographical & Customer
- **>90% renewal rate**
  Including C&I, thanks to strong NPS
- **Hedging strategy** for electricity revenue
  Back to back contracts for recyclates
- **Agility**
  Long track record in efficiency plans
  Specific plans when needed: COVID, 2024/2025 (France, Germany)

In figures

Revenue growth 2018-2024

	2018-24 CAGR
Solid Waste (SW) Revenue	+8%
SW Revenue excl. Suez	+4.5%
EU GDP	+1%

Strong Track Record in Generating Efficiency Gains

Strong track record of efficiency

> Special focus on **operational excellence** and **cost efficiency** in different areas

- SG&A optimization
- Purchasing efficiency
- Process and production

Yearly savings | **~1 % of revenues** for the last 10 years

> **Additional measures when needed,** *e.g plan Recover & Adapt during Covid*

Portfolio Rotation

- **Disposing non-profitable entities,** *e.g disposal of German West Region in 2020*
- **Disposing non-strategic activities,** *e.g collection centers not fueling treatment asset in France*
- M&A: **Tuck-in with quick synergies** delivery, e.g Hofmann Group in Germany

Commercial selectivity

- **Municipal collection tenders**: limited to the most profitable geographic areas & contracts

Cost control

- **Germany & France:** Real estate optimization, interim cost control, maintenance cost optimization, SG&A reduction…

Creating value through combination: Bioenergy

Power and Heat
Waste to Energy plants

Energy ~20% of Waste to Energy Revenue

~€0.4bn revenues

Alternative fuels / RDF

Preparing combustible from non recyclable waste

~€0.4bn revenues

Biomethane
Landfill sites / Anaerobic digestion plants

Energy ~13% of Landfill revenue

~€0.2bn revenues

~9 TWh of Energy produced

~€2.5bn Combined Bioenergy / Waste revenue in 2024
of which ~€1bn Bioenergy sales

VALUE CREATION

Revenue growth

Large demand for:
- Affordable & Sustainable energy
- Locally sourced & secured energy

Margin accretion

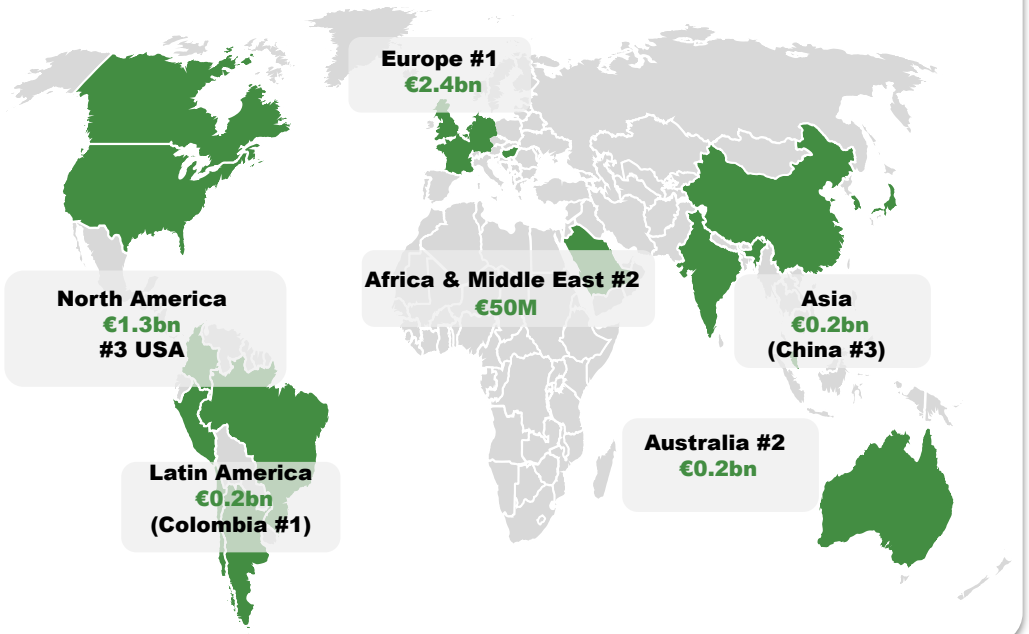

> Boosting returns with **additional margin**

> **Unique positioning**

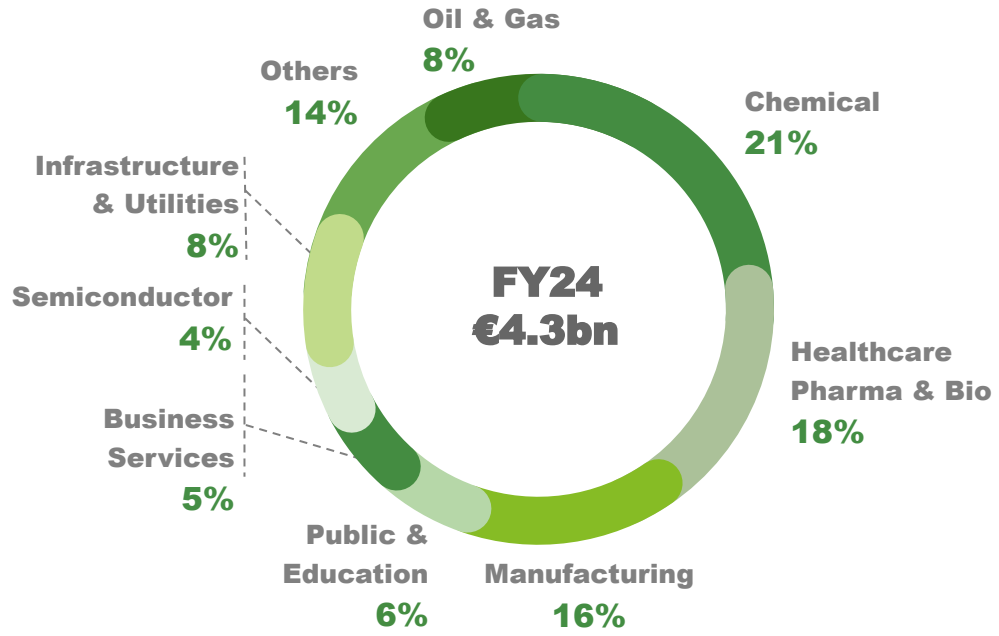

HAZARDOUS WASTE

Hazardous Waste: A key player in all our Geographies

A Global Network

Customer portfolio

Main Financial KPIs - FY 2024

EBITDA	EBITDA Margin	CAPEX	ROCE*	NPS**
€0.6bn	14%	€0.5bn incl. €0.2bn new capacity	6%	54

* ROCE calculated after tax

** Net Promoter Score

VEOLIA

Business Adapted to the Maturity Level of the Sector

Europe

- **#1** Player
- 20 high temperature incineration plants
- Newly opened Battery recycling hydrometallurgy (France)
- **Assets under delivery:**
  > **High temperature Incineration plant** (Germany)
  > Solvent recovery (UK)

Revenue FY24 €2.4bn | **EBITDA Margin ~16%**

U.S.

- **#3** Player
- 3 high temperature incineration plants
- **Asset under delivery:**
  > **High temperature incineration plant** (USA Arkansas)

Revenue FY24 €1.3bn | **EBITDA Margin ~15%**

Rest of the world

- Development in **new fast growing markets**: **Australia, Middle East, Latin America**
- **China**: recovery under way after structuring plan post Covid due to change in local regulation
- **Assets under delivery:**
  > **High temperature incineration plant (KSA)**,
  > Solvent recovery (Taiwan)

Revenue FY24 €0.6bn | **EBITDA Margin ~10%**

Pioneering the Hazardous Waste in Europe — **1975**

Entering the U.S. — **1998**

Developing Hazardous Waste solutions worldwide — **2010s**

VEOLIA

Veolia Value Creation Model in Hazardous Waste:

6 Key Levers

Growth

1 Volume Expansion

New customers, volume expansion with current customer, regulation

2 Pricing strategy & Mix optimization

3 New offers & Innovation

ex PFAS

Revenue Growth Mid to High Single Digit CAGR 2023 - 2027

Performance

4 Efficiency

High utilization rate of Assets > 80%

EBITDA Growth ~+10% CAGR 2023 - 2027

Capital allocation

5 New capacity built 5 Units

High temperature Incineration *(USA, Germany, KSA)* with additional 210 Kt/y treatment capacity

Spent Solvent Regeneration in Taiwan & UK with additional 75 Kt/y treatment capacity

6 Tuck-ins acquisitions

5 small deals signed in H1 2025

IRR > WACC +4%
ROCE ≥ WACC After Year 3

Value Creation

EBITDA margin expansion

Increasing cash generation

Following new assets delivery

Capital efficiency

Continuous ROCE improvement with new capacity commissioned

~+50% ROCE in 2027

2023 Restated of RGS Disposal
All the trajectory figures are expressed at constant FX

VEOLIA

Growth: Mid-to-high single digit growth Booster

1

Volume Expansion

Industrial production + new legislations
stricter control

2

Pricing Strategy & Mix Optimization

2024: 8% price increase in USA
4% price increase in Europe

Broad price mixes

Low calorific:	150/250$/t
High calorific & Packaged Waste:	250/400$/t
Small lab waste:	2000/2600$/t
High halogenic:	3000/4000$/t

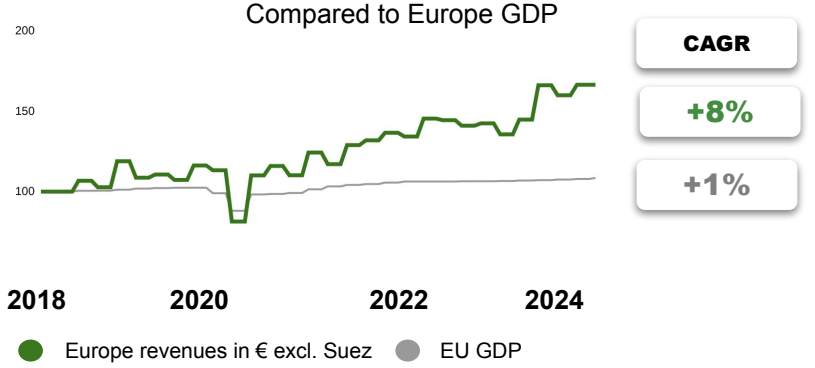

3

New Offers

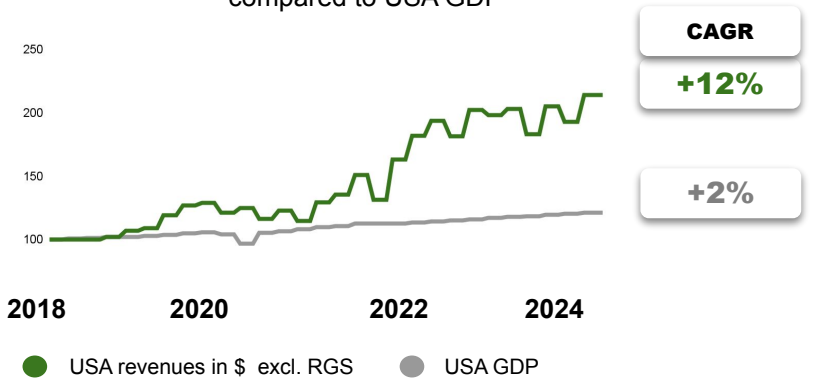

PFAS revenues from €0M in 2022 to €205M in 2024
(half of which from Hazardous Waste)

Long-term disconnect with GDP

Europe Revenue (excl Suez)
Compared to Europe GDP

USA Revenue (excl. RGS)
compared to USA GDP

Performance: Technical Expertise Enhancing Profitability

4

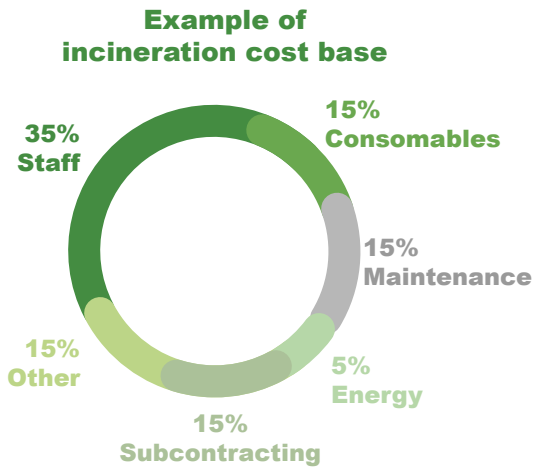

Asset availability

- **Optimize existing capacities** through high availability rates
- Track record in **maintaining very high standards**

  Average availability rates 22-24
  - Europe: 85% to 95% according to asset type
  - USA: ~90%

Network of expertise

- **Unique base of benchmark** based +300 assets worldwide
- Global expertise network allowing **Know-How Export**
- Optimization of the cost base based on **strong technical expertise**

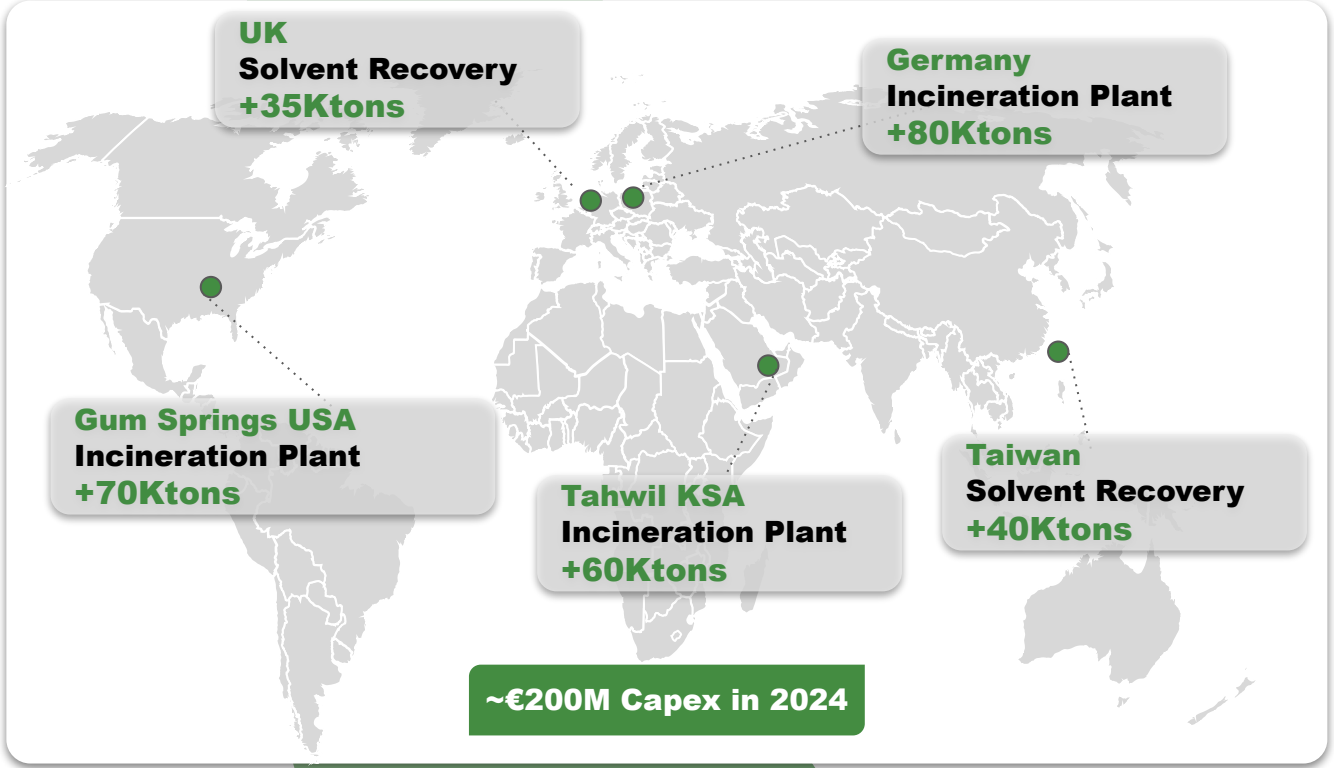

Volume internalization

- **Saturating out existing assets** thanks to our own collection & transfer /preparation asset network

  Internalization rate
  - Europe >80%
  - USA >25%
- **Ensuring commercial ramp-up of additional assets** via additional take or pay of third parties

Capital Allocation: Additional Value Secured

5 **Delivery of new assets +285 KTons by 2027 (out of 430 Ktons/y capacity when fully ramped-up)**

~€200M Capex in 2024

6 **Tuck-ins acquisitions +100 KTons/y**

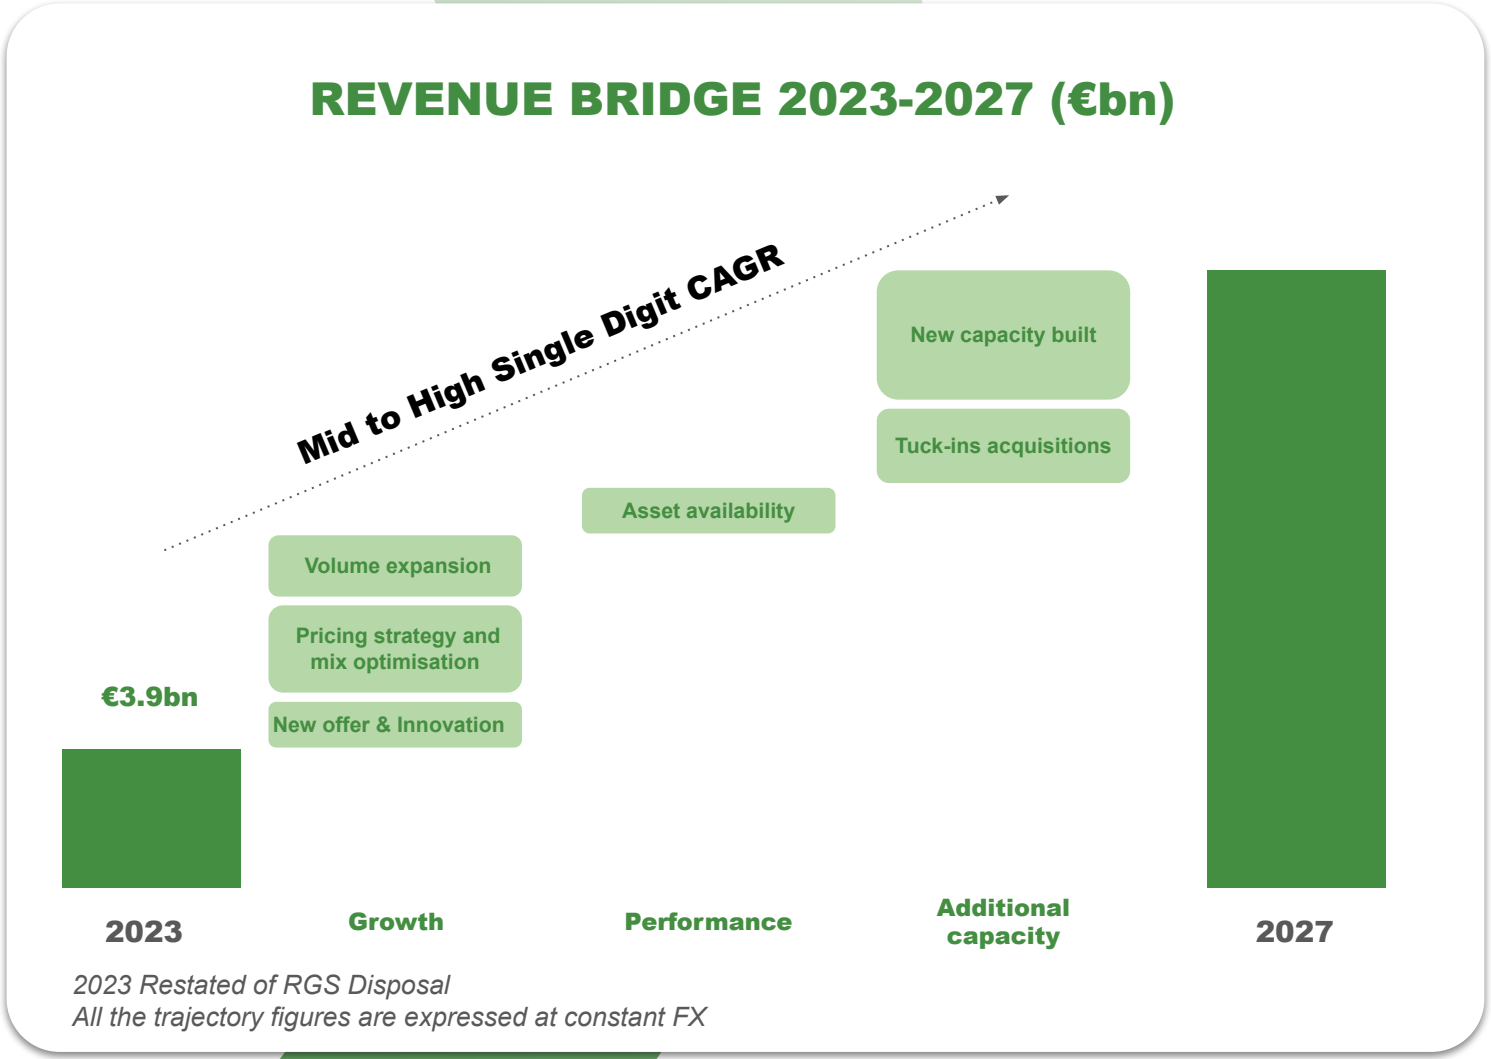

5 tuck-ins signed in H1 2025

- **3 in the U.S.**
  NEDT: Haz Waste management
  Ingenium: Eight 10-days facilities
  MedWaste: Medical Waste management
- **1 in Japan**
  Zeeklite: Haz Waste landfilling
- **1 in Brazil**
  Alagoas Ambiantal: Haz Waste landfill

~€300M Cumulated EV

>50% volumes secured via our own collection network or contracted volumes with clients

Wrap-up: Hazardous Waste Financial Ambitions

2023 Restated of RGS Disposal
All the trajectory figures are expressed at constant FX

GreenUp 24-27

- Revenues growth:
  Mid to high single digit CAGR
- EBITDA Growth: ~10% CAGR
- Margin Expansion
- ROCE Increase: ~+50%
- +285 Kt new capacity opened and +430 Kt/y when fully ramped up
- +100 Kt/y new M&A treatment

CEO, Hazardous Waste Europe, Veolia

Hazardous Waste in Europe

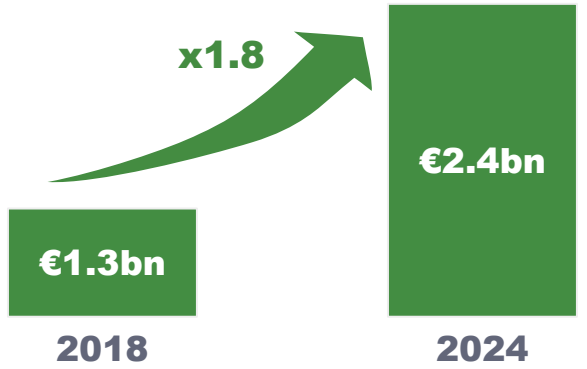

A Mature Sector with Opportunities for Growth

A Unique Integration of offers built over 50 years

- **1st Plant in France in 1975** to protect water resources near Paris
- **Pan European network of assets**
- Overall **5,500+ Ktons** of Haz. Waste treated in 2024

European leader

Revenue Growth

Including additional capacities
Dorog (Hungary - 1998)
Dabrowa (Poland - 2005)
Constanti (Spain - 2014)
Suez (Germany, Belgium - 2022)

Main Competitors

INDAVER · Séché* · REMONDIS · TRADEBE Environmental Services

Key Customers

TotalEnergies · Roche · life.augmented · LyondellBasell · AJINOMOTO

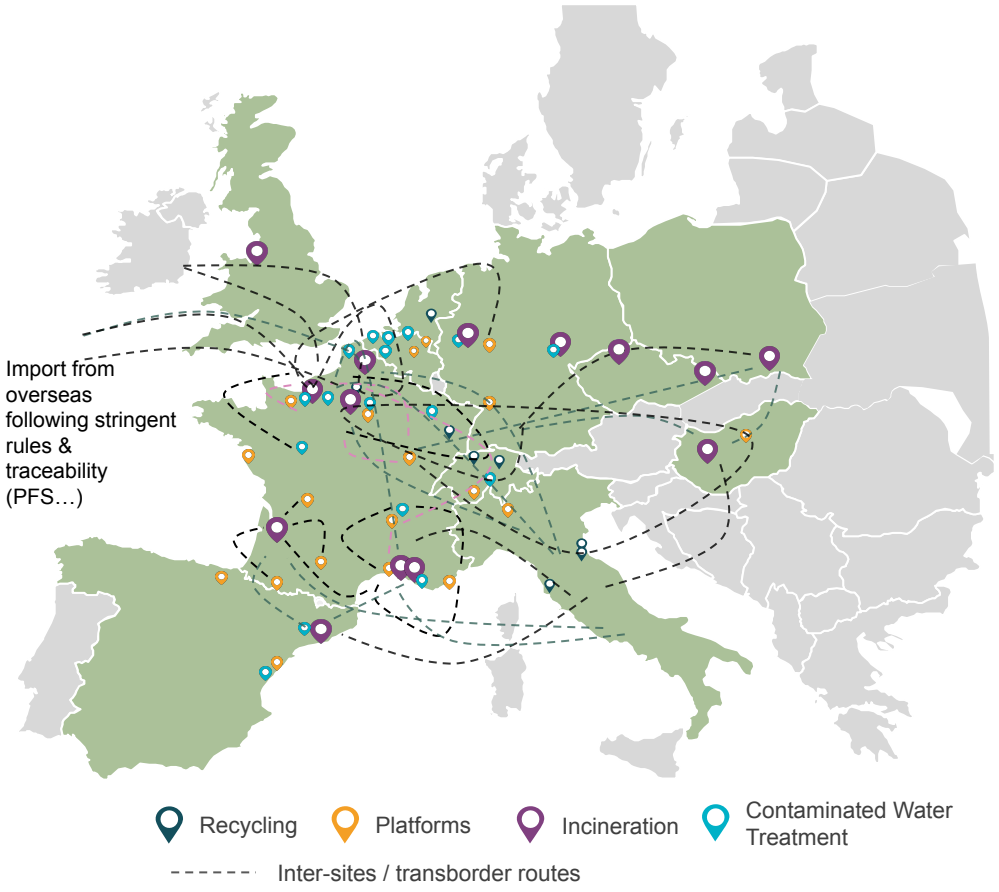

* Listed companies

VEOLIA

In Europe, a Strong Network

Hazardous Waste Transfer, Treatment and Specialised Storage Platforms

A Pan European Network

High Temperature Incineration

20 Incineration sites
(France, Germany, Spain, Poland, Hungary, etc.)

Liquid & Material Recovery

19 Recycling Units
(Recycled oils, recycled fuels, solvents, ...)

Physico-chemical-bio, Treatments

43 Processing units
(Belgium, France, Germany, Italy, Switzerland)

Soil Remediation

16 Land Management treatment sites
(Mobile Units, Belgium, France, Italy, Spain)

Veolia in Europe: creating sustainable value

2018-2024: Veolia Europe Hazardous Waste EBITDA: +10% CAGR

Resilience of the European model

- **Diversity** of the generated **hazardous waste streams**
- **Diversity** of **customer portfolio** (key accounts: 10-15% of our revenue on the segment in Europe)
- **Diversity** of our **treatment capabilities**

On-site services

- Strong ability to offer **services "Inside the customer's fence"**
- Connects **industrial customers** to Veolia's **network of facilities**

Value Creation Model

- **New Offers:** New waste streams, new industries (Gigafactories), DropFast™, etc.
- **Efficiency:** High utilization of Assets, 85% to 95% according to asset type
- **New capacity built:** Ongoing incineration project in Germany (80,000 tons by 2027)

Development Priorities & Ambition

- **Geographic prioritization**
  Growing sector such as Poland, Spain, Belgium
- **Adaptation to the evolution of the sector**
  New substances of concern: PFAS, NMP*, waste generated by Gigafactories,...
- **Decarbonization**
  (electrification, energy efficiency, increased recycling)

** N-Methyl Pyrrolidone is a solvent used in the production of lithium batteries*

Veolia in the US: Thriving in Hazardous Waste

2018-2024: Veolia U.S. Hazardous Waste EBITDA: +12% CAGR*

Customer Centricity

- **Decentralized model**: **local** service **delivery**
- Over **250+ onsite teams**
- **Highest Net Promoter Score (NPS)** in the industry

Agility

- **Robustness to economic downturn**, addressing challenges or opportunities **3-6 months in advance**
- **Reprioritization of industry sectors** according to economic environments

Value Creation Model

- **Volume Expansion:** Treatment internalisation, new target areas through partnerships (retail, patient healthcare)
- **Nimble pricing discipline** & focus on the **less commoditized segments**
- **Asset utilization records** in **incineration**
- **Improved network capacity** & **investment in existing assets** (VLM-Engineered Fuels)
- **Tuck-ins** to extend the network
- **Gum Springs** to be open **by 2027**

Priority Offers & Ambition

- **Focus** on **semiconductors, life sciences, chemical petroleum industries**
- **Expand** our **BeyondPFAS offering**
- **Explore emerging sectors** as white-glove logistics for electronics, battery recycling customers, engineered fuels and renewable energy

** excluding RGS*

VEOLIA

HAZARDOUS WASTE IN MIDDLE-EAST

Helder DARAVANO
General Manager, MAGMA
Near & Middle East, Veolia

In the Middle East, a Major Player in less than a Decade

> **#2 player with €38M revenue in 2024, starting from €0M in 2018**

> **Strong local partner built with the expertise of Veolia worldwide network**

Starting with Magma (UAE): a key treatment in the UAE handed over to Veolia and its partners* in 2023 from ADNOC**

- **20 treatments lines**, including a **25,000 tons/y incinerators**
- **40+ types** of hazardous waste treated **(60 000 tons/y),** including **NORM waste*****
- Circularity: Water reuse, 3MW solar farm, alternative fuel as source of energy
- Merchant Plant: Treatment capacity shared between ADNOC** and the rest of the market

Commissioning of Tahwil (KSA) in 2025
