Message from the Chief Executive Officer

Estelle Brachlianoff, Chief Executive Officer of the Group, commented:

"In the first quarter of 2025, Veolia once again demonstrated the relevance of its business model, which combines resilience and growth, by achieving solid results despite an environment marked by macroeconomic uncertainty and persistent external challenges.

EBITDA increased by +5.5%⁽¹⁾, driven by revenue growth, efficiency gains and the continuation of synergies, in line with our annual objectives and the trajectory of the GreenUp strategic plan.

These achievements confirm our ability to generate sustainable growth, thanks to our multilocal and diversified geographical footprint, as well as our unique mix of activities. The combination of expertise and technologies in water, energy and waste, allows us to offer our clients essential services to protect public health, purchasing power, the competitiveness of industries and the supply of strategic resources.

The growth of our "booster" activities thus rose to +7.2% thanks to the integration of new local energy assets and the excellent performance of hazardous waste.

The implementation of the GreenUp plan continues successfully with the major operation signed today for the acquisition of the 30% minority stake of CDPQ in WTS. This acquisition strengthens us in Water Technologies, a "growth booster" and a segment in which we are already a leader, as well as in our international footprint, particularly in North America.

By taking 100% control, we will be able to unleash the full potential of this activity, both in terms of growth and performance, and thus secure the creation of sustainable value for the Group."

MAJOR EVENTS OF THE PERIOD

1 MAJOR EVENTS OF THE PERIOD

1.1 BUSINESS AND INCOME TRENDS

The results achieved in the first quarter fully confirm the guidance for 2025

In the first quarter of 2025, Veolia once again demonstrated the relevance and robustness of its business model, by achieving solid results in an environment marked by macroeconomic uncertainty and persistent external challenges. This performance reflects the Group's ability to stay on course and deliver results in line with its annual targets particularly thanks to its local and diversified geographical footprint.

The quarter was particularly marked by significant value creation, the result of rigorous execution of our strategy. Our strict financial discipline, particularly in managing our cash flow and controlling our investments, has paid off, as demonstrated by the significant reduction in our net debt compared with the first quarter of 2024. This financial performance bolsters our confidence in our ability to achieve our annual targets while maintaining a solid financial structure.

(€ million)	31 March 2024	31 March 2025	2025 / 2024 Change	
			Δ at constant exchange rates	Δ at constant exchange rates & scope
Revenue	11,556	11,507	-0.8 %	1.5 %
EBITDA	1,624	1,695	3.6 %	5.5 %
Current EBIT ⁽¹⁾	843	915	7.5 %	8.4 %
Net Financial Debt ⁽¹⁾	-18,997	-18,855		

(1) The indicators are defined in Section 5.1 below.

Revenue as of March 31, 2025 was €11,507 million, a change of +1.5% at constant scope and exchange rates. Excluding energy prices, revenue rose +3.9% at constant scope and exchange rates.

- **Water activities** reported organic growth of +2.4%, particularly driven by the solid performance of the municipal water segment. This increase was mainly due to favorable tariff indexation implemented across all geographies;
- **Waste activities** activities recorded growth of +3.7%, fueled by several favorable factors: tariff reviews, increase in volumes processed, increased recovery of recycled materials and remarkable performance in the hazardous waste treatment segment;
- The **Energy activities** activities recorded a -1.9% change, mainly impacted by the drop in energy prices (-7.2%). Nevertheless, the segment demonstrated strong commercial momentum in energy efficiency services, particularly in Belgium with the flexibility offer, and in Spain.
- **EBITDA** as of March 31, 2025 stood at €1,695 million, an increase of +5.5% at constant scope and exchange rates. This improvement was driven by gains generated by operating efficiency programs (+2.3%) as well as synergies (+1.5%), by an increase in volumes (+1.4%), partly offset by the drop in commodity prices (-0.8%).

At the end of the first quarter of 2025, the Group had generated a further €25 million in synergies related to the integration of Suez, bringing the cumulative amount of synergies to €460 million. This performance perfectly follows the trajectory set by the Group's targets.

Current EBIT was €915 million, up +8.4% at constant scope and exchange rates compared to March 31, 2024.

Net financial debt stood at €18,855 million as of March 31, 2025, down -€142 million compared with March 31, 2024.

1.2 CHANGES IN GROUP STRUCTURE - STRATEGIC PROGRAM

1.2.1 Innovations and commercial developments

2025 marks a significant step in the deployment of the GreenUp strategic plan, with a dual approach that characterizes Veolia's growth strategy. The Group is intensifying its innovation efforts and improving its commercial footprint, both in its core businesses, which provides a solid foundation, and in the new activities it has identified as boosters, which are true catalysts for future growth.

Strongholds

- **Australia: Veolia awarded a major contract of AUD \$850 million over 20 years for an innovative recycling facility**

Veolia was awarded a strategic contract in the Australian Capital Territory for the construction and operation of an ultramodern recycling plant. This large-scale project will process 1.3 million metric tons of materials over 20 years, create 136 jobs and reduce carbon emissions by 26,000 metric tons per year, thanks to cutting-edge technologies and integrated solar production. This initiative, which is part of Veolia's GreenUp strategic program, strengthens the Group's presence in Australia where it recorded growth of 7.7% in 2024.

Boosters

- **Desalination, a futuristic solution for water access**

Desalination is becoming a key solution to water scarcity, with significant progress in energy efficiency and costs. With 18% of the global installed capacity, Veolia leads this high-growth market and aims to double its operated capacity by 2030. This ambition is materializing in major contracts recently won in the United Arab Emirates (Mirfa 2, Hassyan), the United Kingdom (Cornwall) and Morocco (Rabat).

- **Start of new asset in Hungary**

Following the acquisition of Uniper Hungary (as detailed in section 1.2.2), Veolia began operating the Gönyü gas power plant in January 2025. This facility includes an additional gas turbine and has the required permits to build a second 428 MW unit (Gönyü II), with the possibility of integrating the newly acquired turbine.

- **Tahwil: A strategic opportunity in hazardous waste treatment in Saudi Arabia**

The Tahwil project concerns the construction and operation of a hazardous waste treatment plant in the city of Jubail in Saudi Arabia. In a favorable context, with demand of over 1 million tons per year, Veolia seized an opportunity to position itself as a major player in the region. The operation began successfully in February 2025.

A major strategic partnership: CriteriaCaixa's entry into Veolia's capital

The Group announced on March 4, 2025, the strengthening of its shareholder structure with the entry of CriteriaCaixa, the investment company of La Caixa Foundation. This leading institutional investor commits to acquiring 5% of the capital of the global environmental services leader and will obtain representation on the Board of Directors.

Strengthening of capital: Bpifrance and the Lac1 fund invest in Veolia's future

Veolia has taken a new step in its development strategy with the significant entry of Bpifrance and its Lac1 fund into the Group's capital, representing an investment of €800 million. This strategic alliance announced on March 17, 2025 demonstrates the confidence placed in the leader in ecological transformation, and will result in the appointment of a Bpifrance representative to the Board of Directors. This major investment underlines the recognition of Veolia's growth potential and its crucial role in the ecological transition of regions and industries. It strengthens the Group's position as a key player in the fight against climate change, while consolidating its governance and innovation capacity.

1.2.2 Changes in Group structure

The main change in scope as of March 31, 2025 was as follows:

- **Acquisition of Uniper (Hungary)**

On February 14, 2024, Veolia Hungary signed a Share Purchase Agreement for the acquisition of Uniper Hungary Energetikai Kft ("Empire"), a subsidiary of Uniper SE.

After obtaining the approvals from the European Union competition authority, the closing of the operation was carried out on January 6, 2025 at a purchase price of €366 million.

1.2.3 Operations in progress

- **Veolia acquires 30% in Water Technologies and Solutions and strengthens its leadership in Water Technologies**

Veolia announces as of May 7th the signature of an agreement with CDPQ to acquire its 30% stake in Water Technologies and Solutions ('WTS'), allowing Veolia to gain 100% control, thereby increasing value creation, simplifying the structure, and extracting additional cost synergies of approximately €90 million. The purchase price for the acquisition will be \$1.75bn (i.e. around €1.5bn).

This acquisition is a logical step in the deployment of the GreenUp strategic plan, which aims to strengthen the Group's foothold in Water Technologies activities and in the United States, both identified as priority growth boosters.

The acquisition of CDPQ's minority interests will strengthen Veolia's unique positioning as a global leader in Water Technologies.

1.3 GROUP FINANCING

1.3.1 Group debt structure

Net financial debt was €18,855 million as of March 31, 2025.

The level of cash as of March 31, 2025 stood at €10,344 million, after the repayment of bonds convertible and/or exchangeable for new or existing shares maturing on January 1, 2025 for an amount of €336 million and the issue of commercial paper for €315 million.

The Group also has at its disposal a multi-currency syndicated loan, with a total undrawn amount of €4,500 million as of March 31, 2025, as well as bilateral credit facilities with a total undrawn amount of €1,703 million as of March 31, 2025. This gives it a solid net liquidity position of €7,488 million as of March 31, 2025, after taking into account current debts (including bank overdrafts and other cash position items) payable in the amount of €9,059 million.

1.3.2 Bond debt management

Veolia Environnement repaid its bonds convertible and/or exchangeable for new or existing shares maturing on January 1, 2025, for the remaining nominal amount of approximately €336 million.

1.3.3 Confirmation of the credit outlook

On March 14, 2025, Standard and Poor's confirmed Veolia Environnement's credit rating at A-2/BBB with a stable outlook. On April 22, 2025, Moody's confirmed the Group's rating at P-2/Baa1 with a stable outlook.

1.3.4 Dividend payment

The Combined General Meeting of April 24, 2025 approved payment of a dividend of €1.40 per share for 2024, payable in cash. The ex-dividend date will be May 12, 2025. Dividends for 2024 will be paid from May 14, 2025.

1.4 APPOINTMENT OF STATUTORY AUDITORS

At the Combined General Meeting held on April 24, 2025, Deloitte & Associés was appointed as statutory auditors in charge of certifying the financial statements (parent company and consolidated) and sustainability information, respectively for a six-year period that will end at the close of the Shareholders' General Meeting called to approve the financial statements for the fiscal year ending December 31, 2030.

1.5 CHANGES IN GOVERNANCE

As part of the annual re-election of the Board, the Board of Directors' meeting of March 11, 2025 noted the expiration of the terms of office of two directors at the end of the General Meeting of April 24, 2025 (Mr. Pierre-André de Chalendar and Mrs. Marion Guillou) and that Mrs. Marion Guillou did not seek the renewal of her term of office at the end of that General Meeting. In addition, the Board of Directors noted that the term of office of Mr. Francisco Reynès would expire, at his request, at the end of that General Meeting.

At the recommendation of the Nominations Committee, the same Board of Directors' meeting decided to ask the General Meeting to renew the term of office of Mr. Pierre-André de Chalendar as director, and appoint Mr. Philippe Brassac, Mr. Arnaud Caudoux and Mrs. Elena Salgado as directors.

The Veolia Environnement Combined General Meeting of April 24, 2025:

- renewed the term of office of Mr. Pierre-André de Chalendar as director; and
- appointed Mr. Philippe Brassac, Mr. Arnaud Caudoux and Mrs. Elena Salgado as directors,

for a four-year period expiring at the end of the General Meeting of Shareholders called to approve the financial statements for the year ending December 31, 2028.

At the date of this document, the Veolia Environnement Board of Directors had fifteen directors, 75% of whom were independent directors (excluding the two directors representing employees and the director representing employee shareholders), 50%⁽¹⁾ of whom were women, and one non-voting member (censeur):

- Mr. Antoine Frérot, Chairman of the Board of Directors;
- Mrs. Estelle Brachlianoff, Chief Executive Officer;
- Mr. Pierre-André de Chalendar*, Senior Independent Director;
- Mr. Olivier Andriès*;
- Mrs. Maryse Aulagnon;
- Mrs. Véronique Bédague*;
- Mr. Philippe Brassac*;
- Mr. Arnaud Caudoux*;
- Mrs. Isabelle Courville*;
- Mr. Franck Le Roux, Director representing employees;
- Mrs. Julia Marton-Lefèvre*;
- Mrs. Agata Mazurek-Bąk, Director representing employee shareholders;
- Mr. Pavel Páša, Director representing employees;
- Mrs. Elena Salgado*;
- Mr. Guillaume Texier*;
- Mr. Enric Xavier Amiguet i Rovira, non-voting member (censeur).

* Independent member.

The composition of the Board Committees is:

- **Accounts and Audit Committee:** Mr. Guillaume Texier (Chairman), Mr. Olivier Andriès, Mrs. Véronique Bédague, Mr. Arnaud Caudoux, Mr. Franck Le Roux (Director representing employees) and Mrs. Agata Mazurek-Bąk (Director representing employee shareholders);
- **Nominations Committee:** Mr. Pierre-André de Chalendar (Chairman), Mrs. Maryse Aulagnon, Mr. Philippe Brassac, Mrs. Isabelle Courville and Mr. Antoine Frérot;
- **Compensation Committee:** Mr. Olivier Andriès (Chairman), Mrs. Maryse Aulagnon, Mr. Pierre-André de Chalendar, Mr. Franck Le Roux (Director representing employees) and Mrs. Elena Salgado;
- **Research, Innovation and Sustainable Development Committee:** Mrs. Isabelle Courville (Chairwoman), Mr. Arnaud Caudoux, Mrs. Julia Marton-Lefèvre, Mr. Pavel Páša (Director representing employees), Mrs. Elena Salgado and Mr. Guillaume Texier. Mr. Enric Amiguet y Rovira is a permanent guest of this committee;
- **Purpose Committee:** Mr. Antoine Frérot (Chairman), Mr. Olivier Andriès, Mrs. Maryse Aulagnon, Mr. Philippe Brassac, Mr. Pierre-André de Chalendar, Mrs. Isabelle Courville, Mr. Franck Le Roux (Director representing employees) and Mr. Guillaume Texier.

The Chief Executive Officer is assisted in the performance of her duties by an Executive Committee, a discussion, consultation and general policy decision-making body which seeks to implement the Group's strategic direction. The Committee is also consulted on major issues concerning the Group's corporate life.

The Executive Committee meets monthly.

As of the date of this document, the Company's Executive Committee had 14 members:

- Mrs. Estelle Brachlianoff, Chief Executive Officer;
- Mr. Sébastien Daziano, Senior Executive Vice President, Strategy, Innovation and development;
- Mr. Gavin Graveson, Senior Executive Vice President, Northern Europe;
- Mr. Philippe Guitard, Senior Executive Vice President, Central and Eastern Europe;
- Mr. Éric Haza, Chief Legal Officer;
- Mrs. Anne Le Guennec, Senior Executive Vice President, Worldwide Water Technologies;
- Mr. Christophe Maquet, Senior Executive Vice President, Asia Pacific;
- Mrs. Emmanuelle Menning, Deputy Chief Executive Officer Finance and Purchasing;
- Mr. Gustavo Migueis, Senior Executive Vice President, Iberia and Latin America;
- Mr. Jean-François Nogrette, Senior Executive Vice President, France and Special Waste Europe;
- Mr. Laurent Obadia, Deputy Chief Executive Officer, in charge of Stakeholders and Communications, Advisor to the Chairman;
- Mr. Helman le Pas de Sécheval, General Counsel;
- Mrs. Isabelle Quainon, Senior Executive Vice President, Human Resources;
- Mr. Frédéric Van Heems, Senior Executive Vice President, North America.

In addition, Executive Committee meetings bring together, each quarter all the Group's functions and geographies to share and commit to the Group's challenges and outlook. At the date of this document, this Committee had 37 members, including the 14 Executive Committee members; its composition can be viewed on Veolia's website (www.veolia.com).

⁽¹⁾ Excluding the two Directors representing employees and the Director representing employee shareholders pursuant to Articles L. 225-27-1 and L. 22-10-7 of the French Commercial Code.

2

ACCOUNTING AND FINANCIAL INFORMATION

2 Accounting and financial information

2.1 KEY FIGURES

Group key figures are presented in accordance with the definitions as described in the publication of the financial statements for the year ended December 31, 2024 (see Chapter 5.1 – Definitions).

(€ million)	March 31, 2024	March 31, 2025	2025 / 2024 Change		
			Δ	Δ at constant exchange rates	Δ at constant scope & exchange rates
Revenue	11,556	11,507	-0.4%	-0.8%	1.5%
EBITDA ⁽¹⁾	1,624	1,695	4.3%	3.6%	5.5%
Current EBIT ^{(2) (3)}	843	915	8.5%	7.5%	8.4%
Net industrial investments (including new operating financial assets)	-915	-1,013			
Net free cash-flow	-673	-906			
Net financial debt - Closing ⁽⁴⁾	-18,997	-18,855			

(1) The indicators are defined in Section 5.1 below.

(2) Including the share of current net income of joint ventures and associates.

(3) Re-presented for depreciation of revalued assets, identified during the Suez purchase price allocation, of €52 million as of March 31, 2024 and €44 million as of March 31, 2025, as defined in Section 5.1 below.

(4) Net financial debt excludes the remeasurement of financial liabilities during the Suez purchase price allocation as defined in Section 5.1 of the Universal Registration Document.

The main foreign exchange impacts between March 31, 2025 and March 31, 2024 are as follows:

FX impacts as of March 31, 2025 (vs March 31, 2024)	%	(€ million)
Revenue	0.4%	42
EBITDA	0.7%	11
Current EBIT	1.0%	9
Net financial debt ⁽¹⁾	-0.8%	150

(1) Including fair value adjustment.

2.2 GROUP REVENUE

2.2.1 Revenues by operating segment

Group consolidated revenue amounted to €11,507 million as of March 31, 2025, compared to €11,556 million as of March 31, 2024. The increase was +1.5% at constant scope and exchange rates and +3.9% excluding the effect of energy prices, which mainly affects Europe excluding France.

(€ million)	March 31, 2024	March 31, 2025	2025/2024 change		
			Δ	Δ at constant exchange rates	Δ at constant scope and exchange rates
France and Special Waste Europe	2,318	2,153	-7.1%	-7.1%	0.1%
Europe excluding France	5,147	5,351	4.0%	3.4%	0.6%
Rest of the World	2,932	2,845	-3.0%	-3.3%	5.0%
Water technologies	1,156	1,156	-%	-0.1%	-0.1%
Other	4	2	-	-	-
GROUP	11,556	11,507	-0.4%	-0.8%	1.5%

As of March 31, 2025, revenue by operating segment breaks down as follows:

Revenue as of December 31, March 31, 2025: €11,507 million

Compared with March 31, 2024, the revenue increase as of March 31, 2025 was +1.5% at constant scope and exchange rates. It increased significantly in the Rest of the World segment, grew moderately in Europe excluding France and France and Special Waste Europe. It was stable in the Water Technologies segment:

- Water technologies -0.1 % ;
- Rest of the world +5.0 % ;
- France and Special Waste Europe +0.1 % , and
- Europe excluding France +0.6 % , and +5.5 % excluding energy prices.

Revenue for the France and Special Waste Europe segment totaled €2,153 million, with organic growth of +0.1% at constant scope and exchange rates compared with March 31, 2024:

- **Water France** sales of €721 million were up +2.1% at constant scope and exchange rates owing to commercial development following contract wins;
- **Waste France** revenue stood at €706 million. It decreased -3.8 % at constant scope and exchange rates, due to lower volumes landfilled and decrease in electricity revenue, partially offset by tariff revisions;
- **Special Waste Europe** recorded revenue of €587 million, up +5.1 % at constant scope and exchange rates. This performance was mainly driven by revised tariffs in the hazardous waste treatment segment and the favorable dynamic of landfill and incineration activities.

Revenue for the **Europe excluding France** segment totaled €5,351 million as of March 31, 2025, with organic change of +0.6 %, impacted by lower energy prices than in 2024. Excluding energy prices, revenue increased +5.5%.

- In **Central and Eastern Europe**, revenue was €3,298 million, down -2.4% at constant scope and exchange rates. This decrease is mainly attributable to the drop in energy prices, partially offset by favorable weather conditions due to a harsher winter than the previous year. The Waste business in Germany continued its positive growth, driven by the increase in treatment operations and the higher recycled paper and cardboard prices compared with the situation as of March 31, 2024;

- In **Northern Europe**, revenue reached €1,056 million up +1.9% at constant scope and exchange rates. This increase was mainly attributable to the change in revenue in Belux, up +5.9% at constant scope and exchange rates, in the Energy and Waste businesses, which benefited from tariff indexation and the very good availability of incineration facilities;

- In **Iberia**, revenue stood at €692 million, up +9.4% at constant scope and exchange rates. This growth was driven by Water activities which benefited from tariff increases and rising volumes. Energy activities are also experiencing growth linked to contract gains and construction work;

- **Italy** generated revenue of €304 million, up +12.5% at constant scope and exchange rates, mainly due to strong commercial activity in energy.

In the **Rest of the world**, revenue totaled €2,845 million, representing organic growth of +5.0%, increasing across all regions :

- Revenue in **Latin America** was €509 million, an increase of +12.5% at constant scope and exchange rates. This growth was driven by positive price effects linked to hyperinflation in Argentina and strong waste activity in Colombia;

- In **Africa Middle-East**, revenue rose +3.7% at constant scope and exchange rates to €417 million, mainly driven by the increase in activity in Morocco and the growth of energy services in the Middle East;

- In **North America**, revenue reached €741 million, up +3.1% at constant scope and exchange rates. This change was in particular due to Hazardous Waste activities, mainly driven by good commercial momentum accompanied by tariff increases, as well as to the regulated Water activity with tariff reviews;

■ Revenue in **Asia** was €674 million, up +4.1 % at constant scope and exchange rates. This increase mainly stemmed from good performance in China across all activities, municipal water in Japan (price increases on contract renewals), energy activity in Taiwan and solid waste in Hong Kong, particularly due to the good performance of landfill sites;

■ In the **Pacific**, region, revenue was €505 million, up +3.4% at constant scope and exchange rates. This increase was mainly driven by the good performance of municipal collections, liquid and hazardous waste treatment activities, organic waste and soil remediation activities.

The **Water technologies** generated revenue of €1,156 million, stable compared to 2024, given the high comparison basis.

2.2.2 Revenues by business line

Compared with March 31, 2024, revenue was up +1.5% at constant scope and exchange rates. Excluding energy prices, revenue increased +3.9%. The change in revenue by business is due to the following:

- growth in **Water** activities of +2.4 % ;
- growth in **Waste** activities of +3.7 % ;
- the variation in Energy -1.9%; excluding energy prices, Energy revenue was up 5.3% compared to March 2024.

(in € million)	March 31, 2024	March 31, 2025	2025/2024		
			Δ	Δ at constant exchange rates	Δ at constant scope and exchange rates
Municipal Water	3,186	2,999	-5.9%	-6.7%	3.3%
Water Technologies & New Solutions	1,156	1,156	-	-0.1%	-0.1%
Water	4,343	4,155	-4.3%	-4.9%	2.4%
Solid Waste	2,662	2,739	2.9%	3.1%	3.0%
Hazardous Waste	1,083	1,071	-1.1%	-1.5%	5.6%
Waste	3,746	3,811	1.7%	1.8%	3.7%
District Heating & Cooling Networks	2,409	2,309	-4.1%	-5.2%	-5.3%
Bioenergy, Flexibility & Energy Efficiency	1,060	1,232	16.2%	16.9%	5.8%
Energy	3,468	3,541	2.1%	1.6%	-1.9%
GROUP	11,556	11,507	-0.4%	-0.8%	1.5%

Revenue for the period ended March 31, 2025 breaks down by business as follows:

Revenue as of March 31, 2025: €11,507 million

The main changes in revenue by business at constant scope and exchange rates compared with figures for the period ended March 31, 2024 break down as follows.

Water revenue

The **Water activity** recorded an increase of +2.4% at constant scope and exchange rates, mainly driven by tariff increases of +1.8%, as well as improved volumes and strong commercial momentum at +0.6%.

Revenue from the **stronghold businesses of Municipal Water** rose +3.3%, with tariff increases in most of the regions (particularly in Spain, Central and Eastern Europe and North America) and a favorable commercial impact.

Revenue from the **booster activities of Water Technologies and New Solutions** was generally stable given the high comparison base.

Waste revenue

Revenue from the **Waste** business was up +3.7% as a result of tariff reviews (+2.7%), a slight increase in recycle prices (+0.4%) and a positive commerce/volumes/works impact (+1.2%).

Revenue from the **stronghold businesses of Solid waste management** rose +3.0%. This growth is mainly explained by good commercial momentum in Germany and Asia, particularly in Hong Kong. It also benefited from favorable tariff reviews, notably in the United Kingdom and Australia.

Revenue from the **booster activities of Hazardous waste treatment** increased +5.6%, mainly driven by France and Solid Waste Europe and the United States.

Energy revenue

Energy revenue was down -1.9% at constant scope and exchange rates, but up +5.3% excluding the impact of energy prices. The unfavorable energy price effect of -7.2% was partly offset by the positive weather impact of +3.2% and by the volumes/commerce effect of +2.2%.

Revenue from the **stronghold businesses of District heating and cooling networks**, mainly located in Central and Eastern Europe, saw growth of +4.9% after neutralizing the impact of energy prices. This growth was driven by good volumes combined with a favorable weather impact.

Revenue from the **booster activities of Bioenergy, flexibility and energy efficiency** rose +6.1% excluding the energy price effect, buoyed by good commercial momentum in Spain, Belgium and the Middle East.

2.2.3 Analysis of changes in Group revenues

Revenue was up +1.5% at constant scope and exchange rates, and +3.9% excluding energy prices. It breaks down as follows:

The **foreign exchange** of €42 million (+0.4%) mainly reflected the appreciation of the US, Polish and UK currencies offset by the depreciation of the Argentine and Hungarian currencies⁽¹⁾.

The **scope effect** of -€271 million (-2.3%) mainly included the impact of the disposals of SADE (France and Special Waste Europe) on February 29, 2024, of RGS (North America) on August 1, 2024, and of Lydec on September 4, 2024, partially offset by the acquisition of Uniper (Hungary) on January 6, 2025.

Commodities (corresponding to changes in energy and recycle prices) amounted to -€253 million (-2.2%), due to lower energy prices (-€270 million), mainly in Central and Eastern Europe, slightly attenuated by the positive effect of recycle prices (+€16 million);

The **weather impact** was +€110 million (+1.0%), primarily in Central and Eastern Europe due to a harsher winter at the start of the year compared with 2024.

The **Commerce/ Volumes/Works** was +€147 million (+1.3%), driven by good commercial momentum, higher water and waste volumes and construction work progress.

Favorable **price effects** represented +€175 million (+1.5%), mainly related to tariff reviews for Water and Waste activities.

⁽¹⁾ Main foreign exchange impacts by currency: US dollar (€37 million), zloty (€31 million) and pound sterling (€19 million), Argentine peso (-€17 million) and Hungarian forint (-€16 million).

2.3 GROUP EBITDA

2.3.1 Analysis of changes in Group EBITDA

Group consolidated EBITDA as of March 31, 2025 was €1,695 million, compared with €1,624 million as of March 31, 2024, +5.5% at constant scope and exchange rates. EBITDA benefited from revenue growth of +3.9% excluding the impact of energy prices, operating efficiency programs (€91 million in gains generated), as well as synergies generated following the integration of Suez (€25 million).

The change in EBITDA between 2024 and 2025 breaks down as follows:

Foreign exchange on EBITDA amounted to €11 million (+0.7%). It mainly reflected the appreciation of the Polish and US currencies⁽¹⁾.

The **scope effect** of -€30 million (-1.8%) mainly included the impact of the disposals of SADE on February 29, 2024, of RGS (North America) on August 1, 2024, and of Lydec on September 4, 2024, partially offset by the acquisition of Uniper (Hungary) on January 6, 2025.

The change in **commodity prices** (energy and recyclate) had a net unfavorable impact on EBITDA of -€13 million (-0.8%), mainly tied to lower energy prices (-€20 million), partly offset by an increase in recyclate prices;

Moreover, **weather impact** was favorable, amounting to €16 million (+1.0%), mainly in Central and Eastern Europe, due to a colder winter in the first quarter of 2025.

Commerce/Volumes/Works were favorable at €22 million (+1.4%)

■ The **efficiencies** generated by the Group, net of gains shared with customers, contract renegotiations and the effect of timing differences on the retrocession of costs, generated €38 million in EBITDA (+2.3%). It represents a retention rate of 42% of the gains generated by the Group at €91 million under the efficiency plan, in line with the annual target of €350 million.

Efficiency plan: 91 M€

⁽¹⁾ Main foreign exchange impacts by currency: zloty (€6 million) and US dollar (€4 million)

Synergies generated in the first quarter of 2025 as part of the integration of Suez were €25 million, primarily from optimizations achieved in procurement and in the Water Technologies segment. These new synergies, combined with those already achieved between 2022 and 2024, brought the total amount to €460 million. This performance is perfectly in line with the Group's upgraded target of €530 million in cumulative synergies by the end of 2025.

Cumulated synergies: 460 M€

2.4 OTHER INCOME STATEMENT ITEMS

2.4.1 Current EBIT

Group Current EBIT for the year ended March 31, 2025 is €915 million, up +8.4% at constant scope and exchange rates on the year ended March 31, 2024.

EBITDA reconciles with Current EBIT as follows:

(€ million)	March 31, 2024	March 31, 2025
EBITDA	1,624	1,695
Renewal expenses	-72	-74
Amortizations, including repayment of operational financial assets ⁽¹⁾	-762	-750
Provisions, capital gain or loss on disposals of fixed assets, and others	31	23
Share of current net income of joint ventures and associates	22	22
Current EBIT	843	915

The increase in current EBIT compared with March 31, 2024 at constant scope and exchange rates amounted to +€70 million (+8.4%), and was mainly due to:

- a strong growth in EBITDA (+€89 million at constant scope and exchange rates);
- an increase in amortization⁽¹⁾, including principal payments on operating financial assets (-€5 million at constant scope and exchange rates);

- the decrease in "provisions net of capital gains on disposals, and others" (-€8 million at constant scope and exchange rates).

The foreign exchange translation on current EBIT was positive by €9 million and mainly reflected the change in the Polish zloty (+€5 million).

⁽¹⁾ Excluding Suez acquisition purchase price allocation

FINANCING

3 Financing

3.1 CHANGE IN FREE CASH FLOW AND NET FINANCIAL DEBT

Net free cash flow before financial investments and dividends amounted to -€906 million as of March 31, 2025, compared to -€673 million as of March 31, 2024.

The change in net free cash flow compared to March 31, 2024 is explained by:

- Higher EBITDA, driven by organic activity growth and gains generated by operating and commercial efficiency plans as well as synergies;
- Net industrial investments of -€1,013 million, up from March 31, 2024 (+9.7% at current exchange rates). They include decarbonization projects underway in Central and Eastern Europe, as well as investments in projects of hazardous waste treatment and PFAS (forever chemicals);
- The change in operating working capital was -€1,147 million;

Net financial debt stood at 18,855 million euros as of March 31, 2025, compared with 17,819 million euros as of December 31, 2024.

Compared with December 31, 2024, the change in net financial debt is mainly due to :

- Net free cash flow of -€906 million;
- Net financial investments of -€231 million mainly following the acquisition of Uniper - Danubius (Hungary) (see 1.2.2 Changes in Group structure);

Net financial debt was also impacted by a favorable effect on foreign exchange translation and changes in fair value of €150 million as of March 31, 2025.

*Net financial debt excluding the impact of the remeasurement of debt as part of the Suez purchase price allocation, see Section 5.1.

4.1 OUTLOOK

Guidance 2025 fully confirmed

- Solid organic growth of revenue⁽¹⁾⁽²⁾ ;
- Organic growth⁽¹⁾ of EBITDA between +5% and +6% ;
- Efficiency gains above €350M complemented by synergies for a cumulated amount raised to €530M end 2025 ;
- Growth of current net income Group share⁽³⁾ of around +9%⁽⁴⁾ ;
- Leverage ratio expected below 3x⁽³⁾ ;
- Dividend growth in line with Current EPS Group share⁽³⁾ growth.

⁽¹⁾ At constant scope and exchange rates

⁽²⁾ Excluding energy prices

⁽³⁾ Excluding the impact of the Suez purchase price allocation

⁽⁴⁾ At constant exchange rates

APPENDICES

5 Appendices

5.1 DEFINITIONS

No changes have been made to non-GAAP financial indicators used by the Group in the preparation of the financial statements as of December 31, 2024.

5.1.1 Non-Strictly accounting indicators (non GAAP)

The expression “**change at constant exchange rates**” represents the change resulting from the application of exchange rates of the prior period to the current period, all other things being equal.

EBITDA comprises the sum of all operating income and expenses received and paid (excluding restructuring charges, non-current working capital impairments, renewal expenses and share acquisition and disposal costs) and principal payments on operating financial assets.

The **EBITDA margin** is defined as the ratio of EBITDA to revenue.

To calculate **Current EBIT** (which includes the share of current net income of joint ventures and associates), the following items are deducted from Operating income:

- impairment of goodwill of controlled subsidiaries and equity-accounted entities;
- restructuring charges;
- non-current provisions and impairment;
- non-current and/or significant impairment of non-current assets (property, plant and equipment, intangible assets and operating financial assets);
- depreciation of assets remeasured in the context of the Suez purchase price allocation;
- share acquisition costs.

The **current cost of net financial debt** is equal to the cost of net financial debt excluding amortization of the debt remeasured in the context of the Suez purchase price allocation.

To calculate **Current net income, Group share**, the following items are deducted from Net income, Group share:

- non-current items of net income;
- amortization of assets remeasured in the context of the Suez purchase price allocation, net of tax and non-controlling interests;
- amortization of the debt remeasured in the context of the Suez purchase price allocation, net of tax and non-controlling interests.

Current net income, Group share, per share is defined as the ratio of Current net income, Group share (not restated for the cost of the coupon attributable to hybrid debt holders) by the weighted average number of outstanding shares during the year.

Net industrial investments, as presented in the statement of changes in net financial debt, include industrial investments (purchases of intangible assets and property, plant and equipment, and operating financial assets), net of industrial asset divestitures.

The Group categorizes its investments:

- maintenance investments which reflect the replacement of equipment and installations used by the Group;
- growth investments which include investments in new equipment and installations embedded in existing contracts or in line with contractual requirements;
- discretionary growth investments which reflect investments in new equipment and installations linked to new projects, contract wins or significant new developments and extensions to existing projects or contracts.

The last two categories are defined as growth investments.

Net financial investments as presented in the statement of changes in net financial debt include financial investments, net of financial divestitures.

Financial investments include purchases of financial assets, including the net financial debt of companies entering the scope of consolidation, and partial purchases resulting from transactions with shareholders where there is no change in control.

Financial divestitures include disposals of financial assets including the net financial debt of companies leaving the scope of consolidation, and partial divestitures resulting from transactions with shareholders where there is no change in control, as well as issues of share capital by non-controlling interests.

Net free cash flow corresponds to free cash flow from continuing operations, and is equal to the sum of EBITDA, dividends received, changes in operating working capital and operating cash flow from financing activities, less net interest expenses, net industrial investments, taxes paid, renewal expenses, restructuring charges and other non-current expenses.

Net financial debt (NFD) represents gross financial debt (non-current borrowings, current borrowings, bank overdrafts and other cash position items) which includes IFRS 16 lease debt, net of cash and cash equivalents, liquid assets and financing-related assets, including fair value adjustments to derivatives hedging debt. Liquid assets are financial assets composed of funds or securities with an initial maturity of more than three months, easily convertible into cash, and managed with respect to a liquidity objective while maintaining a low capital risk. Net financial debt excludes the net impact of the remeasurement of debt in the context of the Suez purchase price allocation.

For other indicators, please refer to paragraph 5.5.2 of the 2024 universal registration document.
